

Investor Profile

As investor, you would like to share in the excellent growth potential offered by South African assets, but these may include some foreign assets. These assets consist of a balanced mix of equities, property, fixed interest investments and cash. The equity component of the fund is relatively high.

The investor's has an aggressive profile, who still seeks a well diversified managed option.

You are seeking a maximum capital growth over the long term, with moderately high volatility over the short to medium term.

How does growth takes place in the fund?

Growth in the fund is determined by the interest, dividends and rental income earned on the assets, as well as changes in the market value of the underlying assets in the investment fund. The growth is affected by the fluctuations in market conditions and does not vest.

Performance Fee

An amount equal to 0.1% for every 1% performance above the benchmark + 0.5%, to a maximum of 0.3%.
