

Investor Profile

As investor, you would like 100% offshore exposure with a foreign currency investment. The International Balanced Fund provides a balance between maximum capital growth and security in the medium to long term.

Fund mandate

The fund manager is mandated to invest 100% of the portfolio in overseas assets.

Performance Fee

Out-performance - An amount equal to 0.1% for every 1% by which the average annual investment return over a 3 year period exceeds the benchmark + 0.25%.
Under-performance - An amount equal to 0.03% for every 1% by which the average annual investment return over a 3 year period under-performs relative to the benchmark - 0.25%.

Portfolio Details

Retirement fund performance % (net of fees)

Period	Single Premium ZAR	Single Premium \$	Avg Inflation p.a
3 months	3.06	-1.08	1.74
6 months	5.86	3.03	2.77
1 yr	3.27	14.31	4.97
3 yrs	7.94	5.89	4.03
5 yrs	7.64	5.69	5.01
10 yrs	11.19	4.44	5.01
Inception	3.91	0.65	-

Performance Note

Performance results are calculated on the sell-to-sell fund performance of the Retirement fund class, net of asset management fee and including reinvested income. Figures are calculated for single premiums in currency of the fund and are annualised for terms greater than a year. CPI Measures the increase in the price of the basket of goods an average family would buy over a specific time period.

Mandatory disclosure

The information contained in this document does not constitute advice by Sanlam. Whilst every attempt has been made to ensure the accuracy of the information contained herein, Sanlam cannot be held responsible for any errors that may occur. Sanlam does not guarantee that the investment fund will produce returns equal to the specified benchmarks. The benchmark is only a mark against which the success or skill of the underlying fund manager is evaluated. Past performance cannot be relied on as an indicator of future performance. Investment performance will depend on the growth in the underlying instruments, whose value may move up or down because of various factors including the financial market environment and exchange rate movements. Your Sanlam plan performance will differ from the returns indicated in this document due to charges, fees, taxes as detailed in your plan contract. The overall impact of charges and fees in your plan is indicated by the Effective Annual Cost (EAC) measure, which is disclosed in your Sanlam product documentation.

How does growth takes place in the fund?

The growth in the underlying assets of the fund determines the growth in the investment part of your policy. The growth is affected by the fluctuations in market conditions and does not vest.
