

Fund objective

As investor, you want simultaneous exposure to both local and offshore markets. Capital growth, rather than capital security, is of great importance to you. You are willing to accept short term volatility in order to maximize the potential long term growth.

Fund mandate

The fund manager is mandated to invest between 40% and 60% of the portfolio in the South African market and the remainder in overseas assets.

Mandatory disclosure

The information contained in this document does not constitute advice by Sanlam. Whilst every attempt has been made to ensure the accuracy of the information contained herein, Sanlam cannot be held responsible for any errors that may occur. Sanlam does not guarantee that the investment fund will produce returns equal to the specified benchmarks. The benchmark is only a mark against which the success or skill of the underlying fund manager is evaluated. Past performance cannot be relied on as an indicator of future performance. Investment performance will depend on the growth in the underlying instruments, whose value may move up or down because of various factors including the financial market environment and exchange rate movements. Your Sanlam plan performance will differ from the returns indicated in this document due to charges, fees, taxes as detailed in your plan contract. The overall impact of charges and fees in your plan is indicated by the Effective Annual Cost (EAC) measure, which is disclosed in your Sanlam product documentation.
