Sanlam

Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Sanlam World Equity Fund – Class C

A sub-fund of Sanlam Universal Funds plc (the "Company")

Managed by Sanlam Asset Management (Ireland) Limited

ISIN: IE00B01J9K88

Objectives and Investment Policy

Objectives

The investment objective of the Sanlam World Equity Fund (the Fund) is to increase the value of your shares over the long term.

Investment policy

This is a multi-manager Fund that follows a fundamental research driven investment process. The Fund is actively managed and invests in equity securities primarily listed in countries within the MSCI World (Developed Market) Index USD (the "Benchmark") but excluding companies which are listed or traded in South Africa.

A maximum of 20% of the Fund may be invested in emerging markets.

The Fund aims to achieve a return exceeding that of the Benchmark of over 200 basis points (before management fees) on a rolling annualised 3 year basis with an ex ante annualised tracking error of up to 10%. There is no guarantee the Fund will achieve the target return and a capital loss may occur.

The Fund may also invest in collective investment schemes (CIS) and exchange traded funds (ETF) which invest in companies as described above.

The Fund may use financial derivative instruments (FDI) for efficient portfolio management purposes only. FDI are financial instruments the value of which is linked to the expected future price movements of underlying assets.

The Fund may invest globally in shares and stocks of real estate companies, real estate related companies and real estate investment trusts (REITS).

You can buy or sell your shares in the Fund any day (except Saturday or Sunday) that banks are open in Dublin.

It is not the intention of the Company to declare a dividend and therefore your shares do not pay you an income.

Recommendation: The Fund is suitable for investors with a time horizon of 5 years.

Risk and Reward Profile

Lower risk ⟷ Higher risk

Typically lower rewards — Typically higher rewards

1	2	3	4	5	**6**	7

Why is this Fund in category 6?

The Fund is rated 6 due to its exposure to shares and stocks, and the nature of its investments which include the risks listed below. These factors may impact the value of the Fund's investments or expose the Fund to losses.

Investing in international companies means that currency exchange rate fluctuations will have an impact on the Fund.

The price of shares and the income from them may fall as well as rise and investors may not get back the amount they have invested. The Fund may invest in companies based in emerging markets which may involve additional risks not typically associated with other more established markets such as increased risk of social, economic and political uncertainty.

Investing in a CIS or ETF may lead to payment by the Fund of additional fees and expenses in relation to those CIS or ETF. It may be difficult for the Fund in extreme market conditions to redeem its shares from a CIS or ETF at short notice without suffering a loss. The ability to trade REITS may be more limited than other stocks.

What do these numbers mean?

They rate how a fund might behave and how much risk there is to your capital. Generally, the chance to make large gains means a risk of suffering large losses.

A **Category 1** fund is not a risk-free investment - the risk of losing your money is small, but the chance of making gains is also limited. With a **Category 7** fund, the risk of losing your money is high but there is also a chance of making higher gains. The seven-category scale is complex (for example, 2 is not twice as risky as 1).

More about this rating:

This rating system is based on the average fluctuations of the prices of funds over the past 5 years - that is, by how much the value of their assets taken together has moved up and down. Historical data, such as is used in calculating the synthetic risk indicator, may not be a reliable indication of the future risk profile of the Fund.

For a more detailed explanation of risks, please refer to the "Risk Factors" section of the prospectus.

Charges

These charges are used to pay the costs of running the Fund, including the costs of marketing and selling. Overall, they reduce the growth of your investment.

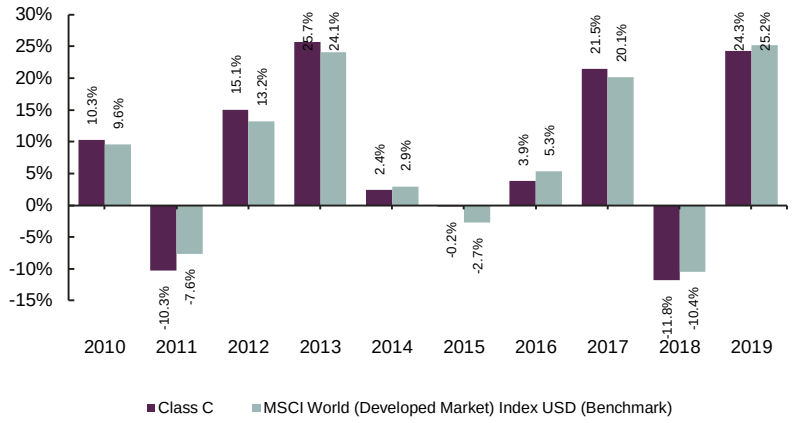
One-off charges taken before or after you invest	
Entry charge	None
Exit charge	3.00%
Switching charge	2.00%
This is the maximum that might be taken out of your money before it is invested and before the proceeds of your investment are paid out.	
Charges taken from the Fund over a year	
Ongoing charge	0.82%
Charges taken from the Fund under certain specific conditions	
Performance fee	None

The entry and exit charges shown are the maximum figures. In some cases you might pay less - you can find this out from your financial adviser.

The ongoing charge is based on the expenses for the previous 12 month period ending June 2020. This figure, which excludes portfolio transaction costs, may vary from year to year.

You can find out more details about the charges by looking at the "Charges and Expenses" section of the prospectus.

Past Performance



Past performance is not a reliable indicator of future performance.

The past performance takes account of all charges and costs, excluding entry and exit charges.

The performance of this class is calculated in US Dollars.

The Fund launched on 17 August 2004. This class started to issue shares on 17 August 2004. A new asset allocation manager was appointed in April 2009, resulting in a change in underlying investment managers and strategy.

Practical Information

Fund Depositary: Brown Brothers Harriman Trustee Services (Ireland) Limited.

About the Fund
