

### Fund Objective

This is a moderately aggressive managed fund of funds which broadly adheres to the strategic asset allocation bands (houseview) of Sanlam Investment Management. The fund aims to deliver long term capital growth with less volatility than an equity fund. A maximum of 50% - 65% of the fund will be invested in equities at any time (both local and offshore). This fund is managed in accordance with legislation governing pension funds and may hold up to 45% of its assets offshore.

### Fund Strategy

This fund will only invest in collective investment schemes managed within Sanlam's investment cluster. The fund is diversified across equities, bonds, cash, listed property and offshore assets giving the investor exposure to the best investment expertise within Sanlam Investments both locally and abroad and in line with its moderately aggressive risk profile.

### Tax Free Unit Trust

This fund qualifies as a tax free investment according to section 12T of the Income Tax Act, with effect from 1 March 2015. South African individuals qualify for the associated tax benefits namely no tax on dividends, income or capital gains whilst still enjoying all the benefits of a unit trust. Note contributions to tax free investments are limited to R36 000 per tax year, with a lifetime limit of R500 000. Amounts invested in excess of these permissible thresholds are taxable.

### Fees (Incl. VAT)

|                                  | <b>A2-Class (%)</b> |
|----------------------------------|---------------------|
| <b>Advice initial fee (max.)</b> | 3.45                |
| <b>Manager initial fee</b>       | N/A                 |
| <b>Advice annual fee (max.)</b>  | 1.15                |
| <b>Manager annual fee</b>        | 1.03                |
| <b>Total Expense Ratio (TER)</b> | 1.17                |

Advice fee | Any advice fee is negotiable between the client and their financial advisor. An annual advice fee negotiated is paid via a repurchase of units from the investor.

Total Expense Ratio (TER) | PERIOD: 01 January 2021 to 31 December 2023  
Total Expense Ratio (TER) | 1.17% of the value of the Financial Product was incurred as expenses relating to the administration of the Financial Product. A higher TER does not necessarily imply a poor return, nor does a low TER imply a good return. The current TER may not necessarily be an accurate indication of future TER's.

Transaction Cost (TC) | 0.12% of the value of the Financial Product was incurred as costs relating to the buying and selling of the assets underlying the Financial Product. Transaction Costs are a necessary cost in administering the Financial Product and impacts Financial Product returns. It should not be considered in isolation as returns may be impacted by many other factors over time including market returns, the type of Financial Product, the investment decisions of the investment

manager and the TER.

Total Investment Charges (TER + TC) | 1.29% of the value of the Financial Product was incurred as costs relating to the investment of the Financial Product.

The portfolio manager may borrow up to 10% of the market value of the portfolio to bridge insufficient liquidity. Fluctuations or movements in exchange rates may cause the value of underlying international investments to go up or down.

### Holdings

| <b>Securities</b>                       | <b>% of Portfolio</b> |
|---|-----------------------|
| SIM General Equity Fund B12 (O)         | 29.33                 |

| Sharpe Ratio (Ann)  | 0.19 |

### Actual highest and lowest annual returns\*

|                  |       |
|------------------|-------|
| Highest Annual % | 17.86 |
| Lowest Annual %  | 3.21  |

#### Asset Allocation

#### Risk Profile (Moderate Aggressive)

In this portfolio, capital growth is of primary importance and results in a higher allocation to equities. The portfolio may display capital fluctuations over the shorter term, however, volatility levels should be lower than a pure equity fund. While diversified across all the major asset classes, this portfolio is tilted more towards equities and other risky asset classes to ensure the best long-term returns of all the asset classes. Fixed income positions are minimized.

#### Portfolio Manager(s)

**Natasha Narsingh**

BSc(Chem), MBA

#### Management of Investments

The management of investments are outsourced to Sanlam Investment Management (Pty) Ltd, FSP 579, an authorised Financial Services Provider under the Financial Advisory and Intermediary Services Act, 2002.

#### Trustee Information

**Standard Bank of South Africa LTD**

#### Additional Information

All reasonable steps have been taken to ensure the information on this MDD is accurate. The information to follow does not constitute financial advice as contemplated in terms of the Financial Advisory and Intermediary Services Act. Independent professional financial advice should always be sought before making an investment decision.

The Sanlam Group is a full member of the Association for Savings and Investment SA. Sanlam Collective Investments (RF) (Pty) Ltd is a registered and approved Manager in Collective Investment Schemes in Securities. Collective investment schemes are generally medium- to long-term investments. Past performance is not necessarily a guide to future performance, and that the value of investments / units / unit trusts may go down as well as up. A schedule of fees and charges and maximum commissions is available from the Manager on request. Additional information of the proposed investment, including brochures, application forms and annual or quarterly reports, can be obtained from the Manager, free of charge. Collective investments are traded at ruling prices and can engage in borrowing and scrip lending. The Manager does not provide any guarantee either with respect to the capital or the return of a portfolio. Collective investments are calculated on a net asset value basis, which is the total market value of all assets in the portfolio including any income accruals and less any deductible expenses such as audit fees, brokerage and service fees. Forward pricing is used. Performance is based on NAV to NAV calculations with income reinvestments done on the ex-div date. Performance is calculated for the portfolio and the individual investor performance may differ as a result of initial fees, actual investment date, date of reinvestment and dividend withholding tax. The manager has the right to close the portfolio to new investors in order to manage it more efficiently in accordance with its mandate. The performance of the portfolio depends on the underlying assets and variable market factors. Lump sum investment performances are quoted. The portfolio may invest in other unit trust portfolios which levy their own fees, and may result in a higher fee structure for our portfolio. All the portfolio options presented are approved collective investment schemes in terms of Collective Investment Schemes Control Act, No 45 of 2002 ("CISCA"). The fund may from time to time invest in foreign countries and therefore it may have risks regarding liquidity, the repatriation of funds, political and macroeconomic situations, foreign exchange, tax, settlement, and the availability of information. A fund of funds portfolio is a portfolio that invests in portfolios of collective investment schemes that levy their own charges, which could result in a higher fee structure for the fund of funds. The Manager has the right to close any portfolios to new investors to manage them more efficiently in accordance with their mandates.

Sources of Performance and Risk Data: Morningstar Direct, INET BFA and Bloomberg.

The risk free asset assumed for the calculation of Sharpe ratios: STEFI Composite Index.

The highest and lowest 12-month returns are based on a 12-month rolling period over 10 years or since inception where the performance history does not exist for 10 years.
