Notes to Performance Data:

Performance figures are prepared for Sanlam Asset Management (Ireland) Limited by Sanlam Investments.

All Fund figures are gross of investment management fees. Gross returns are calculated using a gross share class where available and in the case a fund has no gross share class, the net class is geometrically grossed up by the 12th root of the annual management fee.

* Up to 30th June 2004 this was the Citigroup World Big G4 (ex-MBS)

*** Periods greater than 12 months are annualized

*** The Sanlam India Opportunities Fund was launched on 9th March 2010. Funding of this Fund took place in late August 2010, and it took time for the Fund to be positioned in line with its long-term objectives.

The Fund was representative of its long-term positioning on the 14th September 2010, and so the performance inception date of the Fund has been established as close of business 13th September 2010.

^ These benchmarks were implemented on 1 December 2008. (Note that the historical benchmark data has not changed)

^^ Please note that this index is a Price Index and not a Total Return Index

^ The IA (Investment Management Association) Sterling Strategic Bond Index is a peer group benchmark index. Unlike standard market indices where historic performance numbers do not generally tend to change, the performance of the IA sector indices can change in the short term; this can be up to 14 business days from the period end date, which is because the IA sector indices levels are adjusted each day for the last 14 business days. As a result of this the historical month index returns for this benchmark will change from one-month to another from the returns initially released.

" This is a composite benchmark comprising: 25% FTSE All-Share; 20% MSCI World ex UK; 5% MSCI Emerging Markets; 22.5% iBoxx Sterling Corporate All Maturities; 22.5% iBoxx Sterling Gilts All Maturities; 5% 7-Day LIBID index

The Sanlam World Equity Fund was previously known as the Sanlam Universal Equity Fund; the Sanlam Global Bond Fund was previously known as the Sanlam Universal Bond Fund;

The official monthly US CPI rate is released about two weeks after month end. Consequently, the current month end benchmark is based upon the Bloomberg consensus estimate of monthly US CPI, which is subsequently amended once the official figure is released.

This was previously a composite benchmark made up of 50% Bloomberg Global Developed Sovereign Bond Index 3 to 7 Year USD index, 25% MSCI World index and 25% iShares Developed Markets Property Yield Fund.

+ Prior to the 1st February 2015, the performance of the Sanlam Investments Funds has been calculated based on the oldest share class grossed up by the appropriate management fee. From the 1st February 2015, the official composite returns have been used.

**** The International Flexible benchmark comprises of 50% MSCI World; 10% FTSE EPRA NAREIT Global NTR index; 10% Citigroup WGBI and 10% ICE 3 Month LIBOR index

++ Effective as of 1st January 2019, the benchmark have been changed from MSCI Europe to MSCI World

+++ Effective as of 1st February 2023, the benchmark have been changed from 60% MSCI World / 30% Barclays Global Agg Bond index / 10% 7day US Libid to 65% MSCI World / 25% Barclays Global Agg Bond index / 10% US 3M Libor

** This benchmark is calculated as gross.

^ The JP Morgan 3m USD LIBOR + 3% p.a. has been changed to SOFR + 3% since 1st Jan 2022
