Family Protection Plan

Even though death is not something we want to think about, it is very important that we should all prepare for it - because we will all die one day. It is even more important to plan and think about death when we think of our families - the people who depend on us for financial help.

The Family Protection Plan from Sanlam pays out a lump sum amount in the event of the death of the policyholder.

This product also offers optional benefits such as income protection cover, personal accident cover, retrenchment cover and dread disease cover that can be taken together with the compulsory life cover to form the basic policy.

Family Funeral Plan

With the huge costs of funerals these days, our families are not always able to carry this financial burden. Or, if they are, the costs of a funeral can have very devastating financial consequences for them. However, there is a solution for this - Family Funeral Plan from Sanlam. With this policy you can ensure that funds are available to cover your funeral, your immediate and extended family members' funerals. You can also take out additional and optional benefits such as tombstone cover, repatriation cover, hospital cover and commuter cover.
Family Savings Plan

This policy enables you to realise your dreams by offering you an affordable savings platform whether for yourself to achieve your goals.

Family Education Plan

Good education is probably the best gift you can give your children. The Family Education plan enables you to do just that.

Family Multi Plan

With this product you can combine different benefits from the other products to suit your unique needs. You can take life cover or family funeral cover as a compulsory benefit and combine it with savings and / or extended funeral cover as optional benefits.
