

Fund Objective

The Fund is a feeder fund that invests in the FSB-approved Dodge & Cox Global Stock Fund, managed by Dodge & Cox Worldwide Investments. The objective of the fund is to provide long-term growth of capital and income through exposure to global equity markets.

Fund Strategy

The underlying fund seeks to achieve its objective by investing primarily in a diversified portfolio of equity securities from at least three countries anywhere in the world, including emerging markets. The underlying fund will invest at least 40% of its net asset value in securities of non-US companies.

Why choose this fund?

- Seek exposure to global stock markets to provide long term capital growth.
- Have an investment horizon of 5 years or longer.
- Are comfortable with the global stock market and currency movements, as well as the possibility of losing your capital.
- Wish to invest offshore without having to expatriate rand.

Transaction Costs are a necessary cost in administering the Financial Product and impacts Financial Product returns. It should not be considered in isolation as returns may be impacted by many other factors over time including market returns, the type of Financial Product, the investment decisions of the investment manager and the TER.

Total Investment Charges (TER + TC) | 1.95% of the value of the Financial Product was incurred as costs relating to the investment of the Financial Product.

A feeder fund is a portfolio that, apart from assets in liquid form, consists solely of participatory interest in a single portfolio of a collective investment scheme. The portfolio manager may borrow up to 10% of the market value of the portfolio to bridge insufficient liquidity. The fund is also available via certain LISP's (Linked Investment Service Providers), which levy their own fees. Fluctuations or movements in exchange rates may cause the value of underlying international investments to go up or down.

Risk Profile (Aggressive)

This is an aggressively managed global equity portfolio that aims to deliver capital growth over the long term (5 years or longer). The risk profile of the fund is high, given exposure to foreign stock markets and foreign currency. Over the short term, the capital volatility of the fund may increase but over the longer term, investors may be rewarded with relatively higher returns compared to other less risky asset classes.

The Sanlam Group is a full member of the Association for Savings and Investment SA. Glacier Management Company (RF) (Pty) Ltd forms part of the Sanlam Group of companies. Collective investment schemes are generally medium- to long-term investments. Please note that past performances are not necessarily an accurate determination of future performances, and that the value of investments / units / unit trusts may go down as well as up. A schedule of fees and charges and maximum commissions is available from the Manager, Glacier Management Company (RF) Pty Ltd, a registered and approved Manager in Collective Investment Schemes in Securities. Additional information of the proposed investment, including brochures, application forms and annual or quarterly reports, can be obtained from the Manager, free of charge.

Collective investments are traded at ruling prices and can engage in borrowing and scrip lending. Collective investments are calculated on a net asset value basis, which is the total market value of all assets in the portfolio including any income accruals and less any deductible expenses such as audit fees, brokerage and service fees. Actual investment performance of the portfolio and the investor will differ depending on the initial fees applicable, the actual investment date, and the date of reinvestment of income as well as dividend withholding tax. Forward pricing is used. The Manager does not provide any guarantee either with respect to the capital or the return of a portfolio. The performance of the portfolio depends on the underlying assets and variable market factors. Performance is based on NAV to NAV calculations with income reinvestments done on the ex-div date. Lump sum investment performances are quoted. The portfolio may invest in other unit trust portfolios which levy their own fees, and may result in a higher fee structure for our portfolio. All the portfolio options presented are approved collective investment schemes in terms of Collective Investment Schemes Control Act, No 45 of 2002 ("CISCA"). The fund may from time to time invest in foreign instruments which could be accompanied by additional risks.

The Manager has the right to close any portfolios to new investors to manage them more efficiently in accordance with their mandates. A feeder fund is a portfolio that invests in a single portfolio of collective investment schemes, which levies its own charges and which could result in a higher fee structure for the feeder fund. Standard Bank of South Africa Ltd is the appointed trustee of the Glacier Collective Investments Scheme.
