

Fund Objective

This is a multi asset class fund which aims to grow capital steadily while providing income over the medium to longer term. The preservation of real capital is of primary importance in achieving this objective. The fund is Reg. 28 compliant and is suitable for retirement savings. The fund may hold up to 30% in offshore assets.

Fund Strategy

Typically this fund will hold a large weighting in JSE shares with a maximum equity exposure of 75%. Capital exposure will also include investments in money market instruments, bonds, listed property and up to 30% in offshore assets. Fund risk is lower than that of a pure equity fund. This portfolio may also invest in participatory interests of underlying unit trust portfolios.

Why choose this fund?

*By investing in a single fund which diversifies across all major asset classes, investors 'outsource' the difficult decision of how much and when to invest in various asset classes.

*The fund may hold a maximum of 75% in equities making it less volatile than a general equity fund.

Advice fee | Any advice fee is negotiable between the client and their financial advisor. An annual advice fee negotiated is paid via a repurchase of units from the investor.

This fund is also available via certain LISPS (Linked Investment Service Providers), which levy their own fees.

The portfolio manager may borrow up to 10% of the market value of the portfolio to bridge insufficient liquidity. Fluctuations or movements in exchange rates may cause the value of underlying international investments to go up or down.

Sanlam Reality members may qualify for a discount on the Manager annual fee.

Total Expense Ratio (TER) | PERIOD: 01 April 2016 to 31 March 2019

Total Expense Ratio (TER) | 0.80% of the value of the Financial Product was incurred as expenses relating to the administration of the Financial Product. A higher TER does not necessarily imply a poor return, nor does a low TER imply a good return. The current TER may not necessarily be an accurate indication of future TER's. Inclusive of the TER of 0.80%, a performance fee of 0.22% of the net asset value of the class of participatory interest of the portfolio was recovered.

Transaction Cost (TC) | 0.14% of the value of the Financial Product was incurred as costs relating to the buying and selling of the assets underlying the Financial Product. Transaction Costs are a necessary cost in administering the Financial Product and impacts Financial Product returns. It should not be considered in isolation as returns may be impacted by many other factors over time

including market returns, the type of Financial Product, the investment decisions of the investment manager and the TER.

Total Investment Charges (TER + TC) | 0.94% of the value of the Financial Product was incurred as costs relating to the investment of the Financial Product.

The Sanlam Group is a full member of the Association for Savings and Investment SA. Sanlam Collective Investments (RF) (Pty) Ltd is a registered and approved Manager in Collective Investment Schemes in Securities. Collective investment schemes are generally medium- to long-term investments. Past performance is not necessarily a guide to future performance, and that the value of investments / units / unit trusts may go down as well as up. A schedule of fees and charges and maximum commissions is available from the Manager on request. Additional information of the proposed investment, including brochures, application forms and annual or quarterly reports, can be obtained from the Manager, free of charge. Collective investments are traded at ruling prices and can engage in borrowing and scrip lending. The Manager does not provide any guarantee either with respect to the capital or the return of a portfolio. Collective investments are calculated on a net asset value basis, which is the total market value of all assets in the portfolio including any income accruals and less any deductible expenses such as audit fees, brokerage and service fees. Forward pricing is used. Performance is based on NAV to NAV calculations with income reinvestments done on the ex-div date. Performance is calculated for the portfolio and the individual investor performance may differ as a result of initial fees, actual investment date, date of reinvestment and dividend withholding tax. The manager has the right to close the portfolio to new investors in order to manage it more efficiently in accordance with its mandate. The performance of the portfolio depends on the underlying assets and variable market factors. Lump sum investment performances are quoted. The portfolio may invest in other unit trust portfolios which levy their own fees, and may result in a higher fee structure for our portfolio. All the portfolio options presented are approved collective investment schemes in terms of Collective Investment Schemes Control Act, No 45 of 2002 ("CISCA"). The fund may from time to time invest in foreign countries and therefore it may have risks regarding liquidity, the repatriation of funds, political and macroeconomic situations, foreign exchange, tax, settlement, and the availability of information. The Manager has the right to close any portfolios to new investors to manage them more efficiently in accordance with their mandates.
