

Fund Objective

This is a multi asset low equity fund which aims to deliver smooth, positive real returns (adjusted for the effects of inflation) targeting CPI +4% over a rolling 3 year period. Equity exposure is limited to 40%. The fund is managed in accordance with Reg. 28 guidelines.

Fund Strategy

This actively managed fund is a combination of investments in equity, bonds, money market instruments and listed property both locally and abroad. It can invest 30% offshore. The fund is mandated to invest in unlisted financial instruments (derivatives) for efficient portfolio management. The investment manager will also be allowed to invest in financial instruments (derivatives) as allowed by the Act from time to time in order to achieve its investment objective.

Why choose this fund?

*The fund aims to outperform inflation by a margin of 4% (after annual service fees) over any rolling 3 year period, while also aiming to prevent capital loss over any rolling 12 month period.

*This is not a low equity balanced fund. It does aim to smooth returns and reduce volatility.

*Investors with a medium term investment horizon (3-5 yrs) who require capital stability and real income growth are well suited to invest in this fund.

*This fund is only cognisant of its targeted return and not of any peer group.

*This fund is Regulation 28 compliant

The Sanlam Group is a full member of the Association for Savings and Investment SA. Sanlam Collective Investments (RF) (Pty) Ltd is a registered and approved Manager in Collective Investment Schemes in Securities. Collective investment schemes are generally medium- to long-term investments. Past performance is not necessarily a guide to future performance, and that the value of investments / units / unit trusts may go down as well as up. A schedule of fees and charges and maximum commissions is available from the Manager on request. Additional information of the proposed investment, including brochures, application forms and annual or quarterly reports, can be obtained from the Manager, free of charge. Collective investments are traded at ruling prices and can engage in borrowing and scrip lending. The Manager does not provide any guarantee either with respect to the capital or the return of a portfolio. Collective investments are calculated on a net asset value basis, which is the total market value of all assets in the portfolio including any income accruals and less any deductible expenses such as audit fees, brokerage and service fees. Forward pricing is used. Performance is based on NAV to NAV calculations with income reinvestments done on the ex-div date. Performance is calculated for the portfolio and the individual investor performance may differ as a result of initial fees, actual investment date, date of reinvestment and dividend withholding tax. The manager has the right to close the portfolio to new investors in order to manage it more efficiently in accordance with its mandate. The performance of the portfolio depends on the underlying assets and variable market factors. Lump sum investment performances are quoted. The portfolio may invest in other unit trust portfolios which levy their own fees, and may result in a higher fee structure for our portfolio. All the portfolio options presented are approved collective investment schemes in terms of Collective Investment Schemes Control Act, No 45 of 2002 ("CISCA"). The fund may from time to time invest in foreign countries and therefore it may have risks regarding liquidity, the repatriation of funds, political and macroeconomic situations, foreign exchange, tax, settlement, and the availability of information. The Manager has the right to close any portfolios to new investors to manage them more efficiently in accordance with their mandates.
