

About the option

All the savings will be allocated to the SATRIX Dynamic Balanced Fund. The SATRIX Dynamic Balanced Fund is a passively managed investment fund that offers diversified exposure to all the major local and international asset classes at a competitive fee.

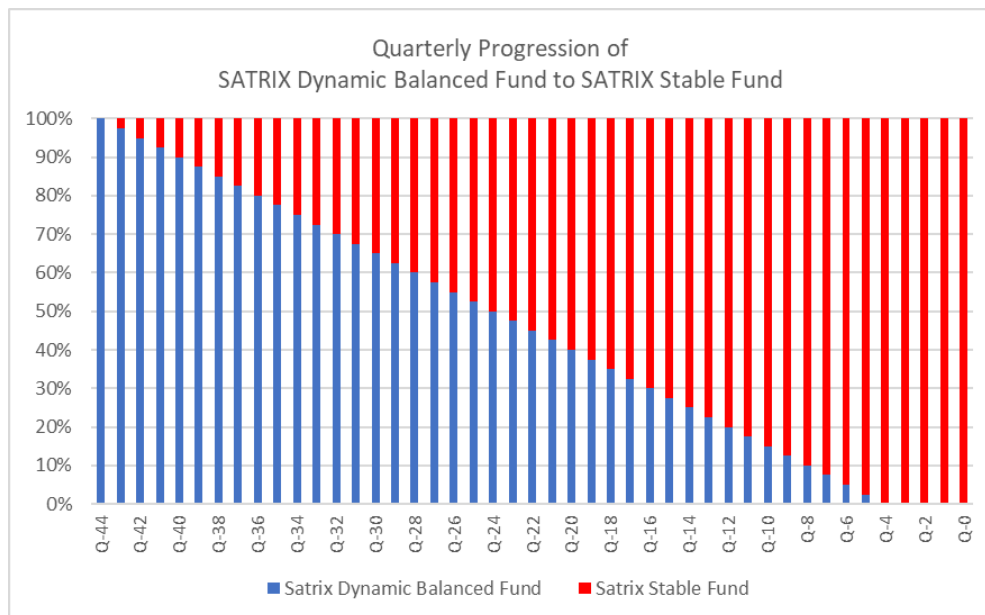

The aim of this portfolio is to provide capital growth over the long term, while complying with the restrictions imposed by Regulation 28.

Ten years before the target savings date we will start to gradually switch the investment from the SATRIX Dynamic Balanced Fund to the SATRIX Stable Fund. The switches will be done on a quarterly basis until 100% of the investment is invested in the SATRIX Stable Fund, one year before the target savings date. This is to ensure that the plan is fully invested in stable investment funds at the target savings date.

About the fund

Risk profile	Moderately aggressive and gradually changes to Cautious
Launch Date	March 2022
Asset Management Charge	SATRIX Dynamic Balanced Fund : 0.30% p.a. SATRIX Stable Fund: 0.30% p.a.

Mandatory disclosure

The information contained in this document does not constitute advice by Sanlam. Whilst every attempt has been made to ensure the accuracy of the information contained herein, Sanlam cannot be held responsible for any errors that may occur. Sanlam does not guarantee that the investment fund will produce returns equal to the specified benchmarks. The benchmark is only a mark against which the success or skill of the underlying fund manager is evaluated. Past performance cannot be relied on as an indicator of future performance. Investment performance will depend on the growth in the underlying instruments, whose value may move up or down because of various factors including the financial market environment and exchange rate movements. Your Sanlam plan performance will differ from the returns indicated in this document due to charges, fees, taxes as detailed in your plan contract. The overall impact of charges and fees in your plan is indicated by the Effective Annual Cost (EAC) measure, which is disclosed in your Sanlam product documentation.
