

### Fund Description

The fund protects investors against short-term volatility by smoothing out investment returns while providing valuable guarantees on benefit payments (death, disability, resignation, retrenchment and retirement). The underlying portfolio holds less risk assets than a typical balanced fund. Fully vesting bonuses, which cannot be negative, are declared monthly in advance. The Monthly Bonus Fund may be used as a default investment portfolio for retirement fund members and complies with the conditions set out in the FSCA Conduct Standard 5 of 2020 (RF). The Portfolio complies with the provisions of Regulation 28, issued under the Pension Funds Act (Act No. 24 of 1956), as amended.
