Investment Objective and Policies

Investment Objective

The investment Objective of the Fund is to achieve long term capital growth over rolling three to five year period.

There is no guarantee that the Fund will meet its objectives

Policy and Guidelines

In order to meet the Fund's objective it will follow a fund of funds approach and accordingly up to 100% of the Net Asset Value of the Fund will be invested in Underlying Funds (as described below) in accordance with the investment restrictions and, subject to the maximum exposure of any one Underlying Fund not exceeding 30% of the Fund's Net Asset Value. Up to 20% of the Net Asset Value of the Fund may be invested in unregulated funds which may not provide a level of investor protection equivalent to schemes authorised under Irish laws and subject to Irish regulations and conditions. The Underlying Funds will provide exposure to equities (including equity linked securities such as common stock, and preference shares). The Fund's exposure to global equities will, at all times, be at least 80% of its Net Asset Value.

The Underlying Funds are not focused on any specific geographical area, industry or sector. With the exception of permitted investments in unlisted securities, investments by the Underlying Funds will be restricted to securities listed or traded on Recognised Markets (as set out in Appendix II of the Prospectus).

1. The Fund may also invest up to 20% of its Net Asset Value in to the following asset classes: bonds (fixed and/or floating; government and/or corporate; rated and unrated);
2. property related securities (which may include real estate investment trusts (REITS) and equities in real estate companies). The ability to trade REITS in the secondary market may be more limited than other stocks. For the avoidance of doubt, investment in REITS will be classified as investment in transferable securities; and/or
3. money market instruments which may be cash and cash equivalents (including but not limited to commercial paper, certificates of deposit, letters of credit and treasury bills). These money market instruments may be held in currencies other than the base currency of the Fund.

"Underlying Fund" means a fund (including exchange traded funds) which will be a Category 1 or Category 2 investment fund that is open-ended and may be listed or unlisted. A Category 1 investment fund shall be one of the following: investment funds established in a Member State of the European Union which are authorised under Directive 2009/65/EC; investment funds established in a Member State of the European Economic Area which are authorised under domestic legislation implementing Directive 2009/65/EC; investment funds established in Guernsey and authorised as Class A Schemes; investment funds established in Jersey as Recognised Funds; investment funds established in the Isle of Man as Authorised Schemes; or Retail Investor AIFs authorised by the Central Bank. A Category 2 investment fund is one of the following: authorised in a Member State of the European Union; established in Guernsey and authorised as Class B Schemes; established in Jersey which are not Recognised Funds; established in the Isle of Man as unauthorised schemes; authorised by the US Securities and Exchanges Commission under the Investment Companies Act 1940; or such other funds which the Central Bank may specify upon application. The AIFM will confirm to the Central Bank that any new Category 2 investment funds will comply, in all material respects with the requirements applicable to a Retail Investor Alternative Investment Fund pursuant to the AIF Rulebook.

When market conditions dictate a more defensive investment strategy and the Investment Manager considers it in the best interest of the Fund, the Fund may on a temporary basis, hold up to 100% of its Net Asset Value in money market instruments which may be cash and cash equivalents (including but not limited to commercial paper, certificates of deposit, letters of credit and treasury bills). These money market instruments may be held in currencies other than the base currency of the Fund.

An Underlying Fund will follow an investment strategy that seeks to provide capital appreciation to its investors through direct investment in primarily equities and also bonds, property related securities and money market instruments (the "Asset Classes"). Underlying Funds will comply in all material respects with the AIF Rulebook issued by the Central Bank. Additional fees may arise from investment in Underlying Funds, as further set out under the heading "Risk Factors" – "Duplication of Costs" below.

Investment Strategy

The Investment Manager will employ an investment strategy in order to select and allocate the indirect investments disclosed in the Policy and Guidelines section above. The investment strategy involves the utilisation of asset allocation and Underlying Fund selection tools.

As part of the Fund selection process the Investment Manager also examines the experience and expertise of the Underlying Fund's investment management team in relation to the type of assets into which the Underlying Fund will invest and details of the Underlying Fund's investment manager's track record in similar strategies; taking into account the return, the number and size of the strategies, and the period of time covered by the track record. In addition to global equities, the Investment Manager may also invest up to 20% of the Net Asset Value of the Fund in other asset classes, including bonds, property related securities and money market instruments. The asset allocation process identifies what Underlying Funds are needed to achieve the requisite exposures to the Asset Classes.

The asset allocation process includes research data from various sources on topics such as global economic conditions (growth and inflation per region which determines appropriate long term interest rates), asset class valuations and political and social trends (e.g. technological and social media advancements, customer or investor behavioural trends (new generation clients) and demographic and population changes (this is known as the "top-down" approach). Appropriate research tools are utilised in determining the Fund's asset allocation. This external and proprietary research is made up of Morningstar, Lipper, Reuters and Bloomberg data which assists the Investment Manager. The asset allocation process of the Fund is monitored and evaluated on an on-going basis and reflects the Investment Manager's current asset allocation strategy but investors should be aware that, subject to the requirements of the Central Bank and Shareholders having been notified in advance, the Investment Manager may modify or change elements of its strategy from time to time. Performance and risk attributes of Underlying Funds are monitored on an ongoing basis, to ensure that the asset allocation process is implemented efficiently and that no undue risk is taken.

Once the asset allocation is determined as described above initial screens are run and potential investment funds for consideration are identified to match the top-down view. This will include a qualitative analysis on factors such as the Underlying Fund's investment process, operational and governance processes (i.e. risk, compliance and audit), the quality of the Underlying Fund's service providers (i.e. the use of a reputable custodian and administrator) and further quantitative work to understand the source of performance (stock, sector, regional and asset class attribution). The Underlying Funds will be shortlisted by obtaining an in depth understanding of the relevant Underlying Fund's investment philosophy and outlook. The Investment Manager will seek Underlying Funds that share similar investment philosophies, global market views and factors that influence the way portfolios are constructed and risk is managed for investors and which have extensive experience in industries or regions that the Investment Manager does not. A questionnaire will also be submitted to the relevant Underlying Fund for completion, which will require detailed explanations of not only the investment process but also the operational and governance processes. The Investment Manager will select reputable Underlying Funds with proven track records.

The Investment Manager looks to invest across a range of different Asset Classes, although it will predominantly be focused on equities by investing at least 80% of its Net Asset Value in equities through Underlying Funds. These asset class weightings will be determined by consideration of the performance and investment objectives of the Fund, and the Investment Manager's views on the

expected risk and return for each asset class, The Investment Manager will not be required to maintain exposure to all of the Asset Classes at any one time.

Investment Restrictions

The general investment restrictions contained in the “Investment Restrictions” section of the Prospectus shall apply. In addition, the following investment restrictions shall apply to the Fund:

- (a) The Fund will not be geared or leveraged through investment in any Underlying Fund.
- (b) Underlying Funds will not be leveraged.
- (c) The Fund will not be permitted to use financial derivative instruments.
- (d) The Fund will not invest more than 30% of its Net Asset Value in any one Underlying Fund.
- (e) Where the Fund invests in any other Underlying Fund managed by the same management company or by an associated or related company, the manager of the scheme in which the investment is being made must waive the preliminary/initial/redemption charge and any management fee which it would normally charge.
- (f) The Underlying Funds in which the Fund invests are themselves prohibited from investing more than 30% of their net assets in other investment funds.
- (g) The Fund will not invest in Underlying Funds which are capable of obtaining leveraged exposure to underlying assets.
- (h) The Fund will not invest in Underlying Funds, organised as a foreign collective investment scheme in hedge funds in accordance with the requirements of the South African legislation governing Foreign Collective Investment Schemes in Hedge Funds.
- (i) The Fund may only invest in collective investment schemes which ordinarily invest in securities as defined in the South African Collective Investment Schemes Control Act No. 45 2002 governing Collective Investment Schemes in Securities.
- (j) Any commission received by the Investment Manager or the AIFM in consideration of an investment in an Underlying Fund will be paid into the Fund.
- (k) The Fund will not invest in Underlying Funds that compel the Underlying Fund to accept physical delivery of a commodity.
- (l) The Fund will not utilise total return swaps, repurchase agreements, reverse repurchase agreements or engage in securities lending.

SFDR Information

For the purposes of Article 6 of SFDR, the AIFM, in consultation with the Investment Manager, has made a determination based on the Fund's investment strategy that Sustainability Risks are not currently relevant to the investment decisions being made in respect of the Fund and has further determined that Sustainability Risks are currently not likely to have a material impact on the returns of the Fund. The investments underlying this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Investment Manager

The AIFM has appointed the following as Investment Manager and Distributor to the Fund.

Absa Investment Management Services (Pty) Ltd (the “**Investment Manager**”) is a private limited company incorporated in South Africa and having its principal office at 4th Floor, Absa Towers West, 180 Commissioner Street, Johannesburg, South Africa. The Investment Manager is regulated by the Financial Sector Conduct Authority in South Africa and is a wholly owned subsidiary of ABSA Group Limited. Absa Multi Management, a division of the Investment Manager will provide the investment management services to the Fund. Absa Multi Management specialises in providing advisory and discretionary investment management services to collective investment scheme funds.

Absa Multi Management manages assets in excess of ZAR64 billion.

Borrowings

In accordance with the general provisions contained in the “Borrowing and Lending Powers” section of

the Prospectus, the Fund may borrow up to 10% of its net assets on a temporary basis. Such borrowings are permitted only to meet the Fund's obligations in relation to (i) the administration of the Fund relating to purchase or sale transactions; and/or (ii) the redemption or cancellation of Shares in the Fund. Borrowings in relation to (i) above are only permitted for a period of up to 8 calendar days, and 61 calendar days in respect of (ii) in order to comply with the South African legislation governing Collective Investment Schemes in Securities and to allow for the Fund to be distributed to South African retail investors. However, at all times borrowings on behalf of the Fund will be in accordance with the requirements of the Central Bank.

Risk Factors

The risk factors set out in the "Risk Factors" section of the Prospectus apply to the Fund. In addition, the following risk factors apply.

Segregated Liability between the Funds

Liabilities of one Fund will not impact on nor be paid out of the assets of another Fund. While the provisions of the Companies Acts provide for segregated liability between Funds, these provisions have yet to be tested in foreign courts, in particular, in satisfying local creditors' claims. Accordingly, it is not free from doubt that the assets of any Fund may be exposed to the liabilities of other Funds of the Company. As of the date hereof, the Directors are not aware of any existing or contingent liability of any Fund of the Company.

Investment Risk

The price of shares and the income from them may fall as well as rise and investors may not get back the amount they have invested and the difference at any one time between the sale and repurchase price of shares means that an investment in the Company should be viewed as medium to long term. In addition to market factors, changes in exchange rates may cause the value of shares to go up or down.

Persons interested in purchasing shares should inform themselves as to (a) the legal requirements within their own countries for the purchase of shares, (b) any foreign exchange restrictions which may be applicable, and (c) the income and other tax consequences of purchase and repurchase of shares.

An investment in the Fund should not constitute a substantial proportion of an investment portfolio and may not be appropriate for all investors.

Investment in certain securities markets involves a greater degree of risk than usually associated with investment in the securities of other major securities markets. Potential investors should consider all risks before investing in the Fund.

Legal Risk

Legal Risk is the risk of loss due to unexpected application of a law or regulation.

Duplication of Costs

It should be noted that the Fund incurs the costs of its own management and other service providers as set out under the Charges and Expenses section below. In addition, to the extent the Fund invests in Underlying Funds, it will bear its proportion of the fees paid by such schemes to their investment manager and other service providers. There may also be performance fees payable at the underlying scheme level. The semi-annual and annual reports of the Company shall provide information on the specific Underlying Funds which the Fund invests in including their regulatory status and the specific fees paid by the Fund to such schemes. The management fees payable in relation to the Underlying Funds will not exceed 2% of the Net Asset Value of the Fund.

Risks associated with investing in Underlying Funds

The Fund will invest its assets in Underlying Funds and investors should be aware of the potential exposure to the Asset Classes of those Underlying Funds in the context of all of their investments.

The investments of the Company are subject to normal market fluctuations and other risks inherent in investing in securities or other instruments and there can be no assurance that the investment

objectives will actually be achieved. In particular the value of investments may be affected by uncertainties such as international, political and economic developments or changes in government policies.

The Fund may invest in Underlying Funds which may be invested wholly independently of one another and may at times hold economically offsetting positions. To the extent that such Underlying Funds do, in fact, hold such positions, the Fund, considered as a whole, cannot achieve any gain or loss despite incurring expenses.

Furthermore, while the Directors or their delegate will exercise reasonable care to comply with the investment restrictions applicable to the Fund, the manager of and/or service providers to the Underlying Funds in which the Fund may invest may not be obliged to comply with such investment restrictions in their management / administration of such funds. No assurance can be given that the investment restrictions of the Fund with respect to individual issuers or other exposures will be adhered to by such Underlying Funds or that, when aggregated, exposure by such Underlying Funds to individual issuers or counterparties will not exceed the investment restrictions applicable to the Fund. If the investment restrictions applicable to the investments directly made by the Fund are exceeded for reasons beyond the control of the Fund or as a result of the exercise of subscription rights, the Directors shall adopt as a priority objective the remedying of that situation, taking due account of the interests of the Shareholders of the Fund.

Illiquidity of Underlying Funds and limitations on repurchase requests

Certain Underlying Funds may have quarterly or less frequent dealing days than the Fund. This could impair the Fund's ability to distribute redemption proceeds to a Shareholder who wishes to redeem its Shares because of the Fund's inability to realise its investments. In circumstances where the Underlying Funds have less frequent dealing days than the Fund, it may be necessary for the Directors to impose a restriction of up to 10% of the redemption proceeds, as the Fund is unable to realise its investments in the Underlying Funds or where this reflects the redemption policy of the Underlying Funds until such time as the full redemption proceeds from the Underlying Funds are received. This may mean that a Shareholder's redemption request is not met on that Dealing Day and will then be dealt with on a pro-rata basis on the next and subsequent Dealing Days. It may take a considerable length of time from the notification by a Shareholder of a request for redemption to the payment of the remaining redemption proceeds. This restriction will only be imposed in the absolute discretion of the Directors where they are of the opinion that it is in the best interests of Shareholders.

Pricing of Underlying Funds

There may be difficulties in obtaining a reliable price for the net asset value of the Underlying Funds as only estimated and indicative valuations of certain Underlying Funds are available at the Valuation Point for the relevant Dealing Day where a redemption is affected. The Underlying Funds may not have dealing days for redemptions which are the same as the Dealing Days in the Fund. This will lead to pricing risk because the net asset value of the Underlying Funds (on the basis of which the Fund's NAV is calculated) may increase or decrease between the Fund's Dealing Day and the Underlying Funds dealing day. Accordingly, the value of an Underlying Funds used for the purpose of valuing the Fund, at the Valuation Point for the relevant Dealing Day, may differ from the amount received by the Fund when it redeems its interests in the Underlying Funds.

Taxation

Potential investors attention is drawn to the taxation risk associated with investing in the Fund. See section headed "Taxation" in the Prospectus.

Dividend Policy

It is not the intention of Directors to declare a dividend on either the Class A (USD) Shares, Class B (USD) Shares, Class C (USD) or Class D (USD) at the current time.

The Directors reserve the right to change the dividend policy of the Fund. Full details of any such change will be disclosed in an updated supplement for the Fund and Shareholders will be notified in advance.

The AIFM will be entitled to receive from the Company an annual fee of up to a maximum of 1.15%, of the Net Asset Value (plus VAT, if any) of the Class A (Euro), Class B (GBP) and Class C (USD) Shares and of up to a maximum of 0.61% of the Net Asset Value (plus VAT, if any) of the Class D (USD) Shares. These fees will accrue and be calculated on each Dealing Day and be payable monthly in arrears. The AIFM will be responsible for all its own out of pocket costs and expenses. The Investment Manager shall be responsible for its own costs and out of pocket expenses incurred in the performance of its duties as Investment Manager of the Fund. The Investment Advisor shall be responsible for its own costs and out of pocket expenses incurred in the performance of its duties as Investment Advisor

of the Fund.

In respect of the registrar and transfer agency services, the Administrator will be entitled to receive from the Company out of the assets of the Fund an annual fee which will not exceed US\$2,500 plus US\$1,000 for each additional share class greater than four, together with reasonable costs and expenses incurred by the Administrator in the performance of its duties as Administrator of the Fund. These fees shall accrue and be calculated on each Dealing Day and shall be payable monthly in arrears. The Administrator shall also be entitled to be reimbursed out of the assets of the Fund all agreed transaction charges (which will be charged at normal commercial rates).

The Depository will be entitled to receive out of the assets of the Fund an annual trustee fee which shall not exceed 0.02% of the Net Asset Value of the Fund (plus VAT, if any) together with reasonable costs and expenses incurred by the Depository in the performance of its duties as depository of the Fund. These fees shall accrue and be calculated on each Dealing Day, and shall be payable monthly in arrears. The Depository will also be entitled to be reimbursed out of the assets of the Fund all agreed safekeeping fees, expenses and transaction charges (which will be charged at normal commercial rates).

The cost of establishing the Fund, obtaining authorisation from any authority, regulatory or other body, listing the Shares on the Irish Stock Exchange, filing fees and the preparation and printing of this Supplement, marketing costs and the fees of all professionals relating to it, which are estimated not to exceed €25,000 will be borne by the Fund and amortised over the first five years of the fund's operation (or such shorter period as may be determined by the Directors at their discretion) following the first issue of Shares in the Fund.

This section should be read in conjunction with the section entitled "Charges and Expenses" in the Prospectus.

Material Contracts

Investment Management and Distribution Agreement

The Investment Management and Distribution Agreement dated 26 March 2020 between the AIFM and the Investment Manager (the "**Investment Management and Distribution Agreement**") provides that the appointment of the Investment Manager will continue in force unless and until terminated by the AIFM on giving not less than 30 days' written notice to the Investment Manager or by the Investment Manager giving not less than 90 days' written notice to the AIFM. However, in certain circumstances the Agreement may be terminated without a minimum period of notice by either party. The Agreement limits the liability of the Investment Manager to the AIFM to losses arising by reason of the fraud, bad faith, negligence, wilful default or wilful misfeasance by the Investment Manager in the performance or non-performance of its duties. The Agreement also provides that the Investment Manager shall indemnify the AIFM to the extent that any claims, reasonable costs, direct damages, direct losses or expenses are attributable to the fraud, bad faith, negligence, wilful default or wilful misfeasance by the Investment Manager in the performance or non-performance of its duties.
