

# Counterpoint Global Equity Fund

A sub-fund of the Sanlam Global Funds plc

Minimum Disclosure Document - 30 November 2021

## Fund Objective

The Fund aims to generate long-term performance in excess of the MSCI World Index. The recommended investment time horizon is a full market cycle. Market cycles vary in length but should include both a full bull and bear market phase.

## Fund Style

The Fund manages a long-term strategy which actively seeks to invest in high quality businesses which offer sustainable real growth prospects at attractive valuations. We aim to capture the full benefits of compounding and as a result portfolio turnover is likely to be low which we believe controls volatility, reduces the investment error rate, and reduces trading costs, which aids long term returns.

# Counterpoint Global Equity Fund

A sub-fund of the Sanlam Global Funds plc

Minimum Disclosure Document - 30 November 2021

## Risk Profile

This Fund is relatively high risk in relation to other asset classes due to its equity based investment approach and the potential for emerging and frontier markets exposure, it may be affected by uncertainties such as international political developments and changes in governmental policy or taxation. Irish domestic law implementing EU and United Nations sanctions may limit or prohibit investment in certain markets and this may have an adverse impact on the operations of the Fund. Investing in international companies means that currency exchange rate fluctuations will have an impact on the Fund returns. Foreign currency shortages in some markets could reduce the fund's ability to repatriate funds. The investment manager aims to reduce the overall risk by their value and fundamental stance. Other risks are Settlement and Clearing Risk, Political Custody Risk, Legal Risk, Efficient Portfolio Management Risk Reinvestment of Cash Collateral Risk And Securities Lending Risk. Further information regarding risk can be obtained by reference to the Prospectus and Supplement.

Use or rely on this information at your own risk. Independent professional financial advice should always be sought before making an investment, decision, not all investments are suitable for all investors. Collective investment schemes are generally medium to long term investments. Please note that past performance is not necessarily a guide to future performance, and that the value of investments / units / unit trusts may go down as well as up. Changes in exchange rates may have an adverse effect on the value, price or income of the product. Collective investments are traded at ruling prices and can engage in borrowing and scrip lending. Collective investments are calculated on a net asset value basis, which is the total market value of all assets in the portfolio including any income accruals and less any deductible expenses such as audit fees, brokerage and service fees. Actual investment performance of the portfolio and the investor will differ based on the initial fees applicable, the actual investment date, the date of reinvestment of income as well as dividend withholding tax. Forward pricing is used. The Manager does not provide any guarantee either with respect to the capital or the return of a portfolio. The performance of the portfolio depends on the underlying assets and variable market factors. Trail commission and incentives may be paid and are for the account of the Manager. The Manager has the right to close any Portfolios to new investors to manage them more efficiently in accordance with their mandates. The Manager retains full legal responsibility for this fund.
