DIRECTORY

Investment Objective and Policies

Investment Objective

The investment objective of the Fund is to provide above average long-term capital growth by investing primarily in global equities which the Investment Manager has identified as being undervalued and as offering above average growth potential.

Policy and Guidelines

The Fund shall be actively managed and its investment objective will be achieved by investing primarily through a combination of direct and indirect investment in a global range of equity securities listed or traded on a Recognised Exchange set out in Appendix I of the Prospectus.

The equity securities held by the Fund may include ordinary and preference shares and other securities with equity characteristics, including but not limited to, warrants and convertible securities.

Subject to the Investment Restrictions set out in the Prospectus and herein, the Fund may invest up to 5% of its Net Asset Value in warrants.

When market conditions dictate a more defensive investment strategy and the Investment Manager considers it in the best interests of the Fund, the Fund may on a temporary basis, hold up to 25% of the Net Asset Value of the Fund in liquid assets including but not limited to cash and cash equivalents (including but not limited to commercial paper, certificates of deposit, other money market instruments and treasury bills). These cash and money-market instruments may be held in currencies other than the Base Currency of the Fund. Money market instruments will have a minimum credit rating of A2 or P2 or F2 (as rated by Standard & Poor's, Moody's or Fitch).

The Fund may invest up to 100% of its Net Asset Value in securities of companies listed or traded in countries considered to be emerging markets by the Manager.

The Fund may also invest indirectly in such securities through holdings in UCITS funds domiciled in a Member State and other open-ended collective investment schemes that satisfy the requirements of the Central Bank, such as Guernsey Class A Schemes, Jersey Recognised Funds and Isle of Man Authorised Schemes, including other schemes managed by the Manager or its affiliates subject to the investment restrictions below and set out in the Prospectus. Investment in units of UCITS or non-UCITS will be limited to collective investment schemes which adhere to similar restrictions as those applying to the Company and its Funds. Investment in such collective investment schemes will be subject to Investment Restriction 4 below. The Fund may invest up to 15% of its Net Asset Value in real estate investment trusts ("**REITS**") which are listed on a Recognised Exchange set out in Appendix I of the Prospectus.

The Fund may employ techniques and instruments for efficient portfolio management in accordance with the conditions and limits set down by the Central Bank, details of which are set out under "Efficient Portfolio Management". The Fund will not use financial derivative instruments until a risk management process has been submitted and cleared by the Central Bank.

The Fund may measure its performance relative to a benchmark index (the MSCI Daily Total Return Net World Index in USD) (the "**Benchmark Index**") for reference or investor communication purposes, including in the Company's annual and half-yearly reports. The Fund would be managed in reference to this Benchmark Index. However the performance of the Fund relative to the Benchmark Index is not factored in any way into the investment process and the Fund does not operate any form of target to outperform the Benchmark Index. Furthermore, the Benchmark Index does not constrain the Fund from being managed on a fully discretionary basis. The Benchmark index is a broad global equity index that represents large and mid-cap equity performance across all 23 developed markets countries. It covers approximately 85% of the free float-adjusted market capitalization in each country.

As the Fund may primarily invest up to 100% of its Net Asset Value in securities of companies listed or traded in countries considered to be emerging markets by the Investment Manager, an investment into this Fund should not constitute a substantial portion of an investment portfolio and may not be appropriate for all investors.

The ability to trade in REITS in the secondary market can be more limited than other stocks. The liquidity of REITS on the major US stock exchanges is an average less than the typical stock quoted on the S&P 500 Index.

Investment Restrictions

The general investment restrictions contained in the "Investment Restrictions" section of the Prospectus shall apply. In addition, the following investment restriction shall apply to the Fund:

1. Short selling of securities is not permitted.
2. The Fund may not be geared or leveraged through investment in any security, including but not limited to warrants.
3. Over the counter financial derivative instruments ("**FDI**") (except for forward currency transactions, currency (exchange rate) swaps and interest rate swap transactions) are not permitted.
4. Investment in collective investment schemes may not exceed 20% of the Net Asset Value of the Fund, subject to a maximum of 20% in any one collective investment scheme.
5. The Fund will not invest in securities that compel the Fund to accept physical delivery of a commodity.
6. The Fund will not invest in a collective investment scheme that is organised as a foreign collective investment scheme in hedge funds in accordance with the requirements of the South African legislation governing Foreign Collective Investment Schemes in Hedge Funds.
7. The Fund may only invest in a collective investment scheme which ordinarily invest in securities as defined in the South African Collective Investment Schemes Control Act No. 45 2002 governing Collective Investment Schemes in Securities.

Efficient Portfolio Management

The Fund may enter into Securities Financing Transactions in the form of securities lending arrangements. Further details in respect of Securities Financing Transactions and applicable limits are set out in the Prospectus under the heading "Repurchase/Reverse Repurchase Agreements and Securities Lending". Securities lending is used to generate additional income for the Fund with an acceptably low level of risk.

Further details on the requirements relating to such Securities Financing Transactions and the Collateral Policy for the Fund is contained in the Prospectus

SFDR Information

The Investment Manager is a signatory to the Principles for Responsible Investing (UN PRI), backed by the United Nations and subscribes to the Code for Responsible Investing in South Africa (CRISA). The Investment Manager believes that researching and understanding Sustainability Risks, and motivating companies in which the Fund invests to manage these actively and strategically for the long term, enables the Investment Manager to potentially improve the Fund's risk adjusted returns. However, the Investment Manager generally does not include nor exclude any particular investment or industry based on Sustainability Risks alone. Accordingly, the Manager, in consultation with the Investment Manager, has made a determination based on the Fund's investment objective and strategy that for the purposes of SFDR, that Sustainability Risks are currently not likely to have a material impact on the returns of the Fund. The investments underlying this financial product do not take into account the EU criteria for environmentally sustainable economic activities. Further information on the Investment Manager's responsible investment policy can be found on the Investment Manager's website at www.denkercapital.com.

GEM is not a "regulated market" as defined under the Directive on Markets in Financial Instruments 2014/65/EU.

Neither the admission of the Shares to the Official List and to trading on the Global Exchange Market of Euronext Dublin nor the approval of this Supplement pursuant to the listing requirements of Euronext Dublin shall constitute a warranty or representation by Euronext Dublin as to the competence of service providers to or any other party connected with the Fund, the adequacy of information contained in this Supplement or this Prospectus or the suitability of the Fund for investment purposes.

As at the date of this Supplement, no Director nor their spouses nor their infant children or any person closely associated have any interest in the Shares of the Fund or any options in respect of such capital.

As at the date of this document the Fund does not have any loan capital (including term loans) outstanding or created but unissued or any outstanding mortgages, charges, debentures or other borrowings or indebtedness in the nature of borrowings, including bank overdrafts, liabilities under acceptance (other than normal trade bills) or acceptance credits, hire purchase or finance lease commitments, guarantees or other contingent liabilities which are material in nature.

Save as disclosed herein there has been no significant change and no significant new matter has arisen since the date of the Prospectus.

Investment Manager and Distributor

The investment manager and distributor currently appointed to the Fund is:

Denker Capital (Pty) Ltd

Denker Capital (Pty) Ltd is a company incorporated in South Africa and having its registered office and place of business at 6th Floor, The Edge, 3 Howick Close, Tyger Falls, Bellville 7530, South Africa. It provides, inter alia, discretionary portfolio management services and investment advisory services for private as well as for institutional clients in all areas of international securities business. Denker Capital (Pty) Ltd is regulated by the Financial Sector Conduct Authority ("FSCA") in South Africa.

Borrowings

In accordance with the general provisions contained in the "Borrowing and Lending Powers" section of the Prospectus, the Fund may borrow up to 10% of its Net Asset Value on a temporary basis. Such borrowings are permitted only to meet the Fund's obligations in relation to (i) the administration of the Fund relating to purchase or sale transactions; and/or (ii) the redemption or cancellation of Shares in the Fund. Borrowings in relation to (i) above are only permitted for a period of up to 8 calendar days, and 61 calendar days in respect of (ii) in order to comply with the South African Financial Sector Conduct Authority and to allow for the Fund to be distributed to South African retail investors. However, at all times borrowings on behalf of the Fund will be in accordance with the Regulations and the requirements of the Central Bank.

Risk Factors

The risk factors set out in the "Risk Factors" section of the Prospectus apply to the Fund. In addition, the following risk factors apply to the Fund:

Segregated Liability between the Funds

Liabilities of one Fund will not impact on nor be paid out of the assets of another Fund. While the provisions of the Companies Act 2014 provide for segregated liability between Funds, these provisions have yet to be tested in foreign courts, in particular, in satisfying local creditors' claims. Accordingly it is not free from doubt that the assets of any Fund may be exposed to the liabilities of other Funds of the Company. As of the date of the Prospectus the Directors are not aware of any existing or contingent liability of any Fund of the Company.

Political and/or Regulatory Risks

The value of the Fund's assets may be affected by uncertainties such as international political developments, changes in government policies, changes in taxation, restrictions on foreign investment and currency repatriation, currency fluctuations and other developments in the laws and regulations of countries in which investment may be made. Furthermore, the legal infrastructure and accounting, auditing and reporting standards in certain countries in which investment may be made may not provide the same degree of investor protection or information to investors as would generally apply in major securities markets.

Settlement and Clearing Risk

The trading and settlement practices on some of the exchanges or markets on which the Fund may invest may not be the same as those in more developed markets of western Europe and the United States. In particular, some or all of the following additional risks may be associated with settlement and clearing of securities transactions in emerging market countries. These additional risks include delays experienced in repatriation of sales proceeds due to local exchange controls, an uncertain legal and regulatory environment and the possibility that bargains may be settled by a free delivery of stock with payment of cash in an uncollateralised manner. That may increase settlement and clearing risk and/or result in delays in realising investments made by the Fund.

Depositary Risk

Local custody services in some of the emerging market countries in which the Fund may invest may not be the same as those in more developed market countries and there is a transaction and custody risk involved in dealing in such markets.

Emerging Markets

Investing in emerging markets involve additional risks and special considerations not typically associated with investing in other more established economies or securities markets. Such risks may include (i) increased risk of nationalisation or expropriation of assets or confiscatory taxation; (ii) greater social, economic and political uncertainty, including war; (iii) higher dependence on exports and the corresponding importance of international trade; (iv) greater volatility, less liquidity and smaller capitalisation of securities markets; (v) greater volatility in currency exchange rates; (vi) greater risk of inflation; (vii) greater controls on foreign investment and limitations on repatriation of invested capital and on the ability to exchange local currencies for US dollars; (viii) increased likelihood of governmental decisions to cease support of economic reform programmes or to impose centrally planned economies; (ix) differences in auditing and financial reporting standards which may result in the unavailability of material information about issuers; (x) less extensive regulation of the securities markets; (xi) longer settlement periods for securities transactions and less reliable clearance and custody arrangements; (xii) less protection through registration of assets and (xiii) less developed corporate laws regarding fiduciary duties of officers and directors and protection of shareholders.

Risks associated with FDI

While the prudent use of FDI can be beneficial, FDIs also involve risks different from, and in certain cases greater than, the risks presented by more traditional investments. Where the Fund enters into swap arrangements and derivative techniques, they will be exposed to the risk that the counterparty may default on its obligations to perform under the relevant contract. In the event of a bankruptcy or insolvency of a counterparty, the Fund could experience delays in liquidating the position and may incur significant losses. There is also a possibility that ongoing derivative transactions will be terminated unexpectedly as a result of events outside the control of the Manager, for instance, bankruptcy, supervening illegality or a change in the tax or accounting laws relative to those transactions at the time the agreement was originated. In accordance with standard industry practice, it is the Manager's policy to net exposures of the Fund against its counterparties.

Legal Risk

Legal Risk is the risk of loss due to unexpected application of a law or regulation, or because contracts are not legally enforceable or documented correctly in the context of FDI.

Real Estate Risk

The value of the Fund will be affected by the strength of the real estate markets. Factors that could affect the value of the Fund's holdings include the following: (i) overbuilding and increased competition; (ii) increases in property taxes and operating expenses; (iii) declines in the value of real estate; (iv) lack of availability of equity and debt financing to refinance maturing debt; (v) vacancies due to economic conditions and tenant bankruptcies; (vi) losses due to costs resulting from environmental contamination and its related clean-up; (vii) changes in interest rates; (viii) changes in zoning laws; (ix) casualty or condemnation losses; (x) variations in rental income; (xi) changes in neighbourhood values; and (xii) functional obsolescence and appeal of properties to tenants.

REITS Risk

REITS may be affected by changes in the value of the underlying property owned by the trusts. Equity REITS are dependent upon management skills, may not be diversified and are subject to the risks of financing projects. Such trusts are also subject to heavy cash flow dependency and self-liquidation. The ability to trade REITS in the secondary market can be more limited than other stocks.

Efficient Portfolio Management Risk

The Company on behalf of the Fund may enter securities lending arrangements for efficient portfolio management purposes. Investors should be aware that from time to time, the Fund may engage with securities lending agents that are related parties to the Depositary or other service providers of the Company. Such engagement may on occasion cause a conflict of interest with the role of the Depositary or other service provider in respect of the Company. Please refer to the section entitled "Portfolio Transactions and Conflicts of Interest" in the Prospectus for further details on the conditions applicable to any such related party transactions. The identity of any such related parties will be specifically identified in the Company's semi-annual and annual reports.

Reinvestment of Cash Collateral Risk

As the Fund may reinvest cash collateral received, subject to the conditions and within the limits laid down by the Central Bank, the Fund will be exposed to the risk associated with such investments, such as failure or default of the issuer of the relevant security.

Securities Lending Risk

There are risks associated with the Fund engaging in securities lending. As with any extensions of credit, there are risks of delay and recovery. Should the borrower of securities fail financially or default in any of its obligations under any securities lending transaction, the collateral provided in connection with such transaction will be called upon. A securities lending transaction will involve the receipt of collateral. However there is a risk that the value of the collateral may fall and the Fund suffer loss as a result.

Dividend Policy

The Manager has obtained UK "reporting fund" status for accounting periods commencing 1 January 2011 in respect of Class A (GBP) Shares and Class C (GBP) Shares. In broad terms a "reporting fund" is an offshore fund that meets certain upfront and annual reporting requirements to HM Revenue & Customs and its Shareholders. Once reporting fund status is obtained from HM Revenue & Customs for the relevant classes it will remain in place permanently, provided the annual requirements are complied with. UK Shareholders who hold their interests in the Class A (GBP) Shares and Class C (GBP) Shares at the end of the reporting period to which the reported income relates, subject to their personal circumstances, will normally be liable to either income tax or corporation tax on the higher of any cash distribution paid and the full reported amount. The reported income will be deemed to arise to UK Shareholders on the date the report is issued by the Company.

As at the date of this Supplement, no dividends have been declared.

Subject to the discretion of the Directors, dividends (if any) will be declared and paid on an annual basis in or around May of each year following the finalisation of the year end financial statements. Shareholders will have the option to either receive the declared dividend (if any) or re-invest in the purchase of Shares of the relevant class. Payment will be paid by telegraphic transfer in Sterling to the Shareholder's account unless the payment is for an amount less than £100 in which case such payment will be automatically reinvested in the purchase of Shares of the relevant class for the account of the relevant Shareholder. The Directors reserve the right to change the dividend policy of the Fund to reflect changes that may occur from time to time in the requirements for qualifying as a reporting fund or otherwise for the purposes of UK taxation.

Investors should refer to their tax advisors in relation to the implications of these Share classes obtaining such status and any payment of dividends. Please see the section entitled "United Kingdom" under the "Taxation" section of the Prospectus for further details.

The Manager will be entitled to receive from the Company an annual fee of up to a maximum of 1.5% of the Net Asset Value of the Class A (USD) Shares, 1.5% of the Net Asset Value of the Class A (GBP) Shares, 1.5% of the Net Asset Value of the Class A (EUR) Shares, 0.85% of the Net Asset Value of the Class B Shares, 0.75% of the Net Asset Value of the Class C Shares, 0.75% of the Net Asset Value of the Class C (GBP) Shares, 0.75% of the Net Asset Value of the Class D Shares, 1.5% of the Net Asset Value of the Class F (USD) Shares and 0.90% of the Net Asset Value of the Class G (USD) Shares. The Manager is not entitled to receive any fees in respect of the Class E Shares. These fees will accrue and be calculated on each Dealing Day and be payable monthly in arrears. The Manager will be responsible for all its own out of pocket costs and expenses.

The Manager will pay out of its fees, the fees of the Investment Manager and the fees and expenses of each of the Investment Transition Managers and the Distributors. The Investment Manager shall be responsible for its own costs and out of pocket expenses incurred by the Investment Manager in the performance of its duties as Investment Manager of the Fund.

Upon the subscription for Class F (USD) Shares the Distributor or at its direction any sub-distributor or intermediaries shall receive a fee of 5% of the Net Asset Value attributable to the value thereof at the time of subscription the ("Distribution Charge"). This fee shall be recovered either: (i) by being amortised over a five year period against the assets of the Fund attributable to the particular Class or Share or (ii) by way of the levy of the Contingent Deferred Sales Charge as described below.

A Contingent Deferred Sales Charge will be levied upon shareholders in the Class F (USD) Shares who redeem within 60 months of the Share's purchase date. The Contingent Deferred Sales Charge will initially be 5% of the Net Asset Value per Share at the time of subscription which will decline to 0% of the Net Asset Value per Share at the time of subscription 60 months after the purchase date as shown in the following table:

Number of Months after the Purchase Date	**Contingent Deferred Sales Charge**
12 months or less	5%
13 to 24 months	4%
25 to 36 months	3%
37 to 48 months	2%
49 to 60 months	1%
Over 60 months	None

The Contingent Deferred Sales Charge is payable to the Fund attributable to the particular Share Class and will be applied to repay the unamortised balance of the Distribution Charge, which will be a benefit to the Class F (USD) Shares. If the amount of the Contingent Deferred Sales Charge Fee that is assessed on the redemption of Class F (USD) Shares exceeds the unamortised balance of the Contingent Deferred Sales Charge with respect to the Shares, the Fund will retain such excess amount, subject to the charge not exceeding 5% for any Shareholder. Any Contingent Deferred Sales Charge applicable is calculated on a first in first out basis, from the Dealing Day at purchase to the Dealing Day at redemption as a percentage of the lower of the Net Asset Value per Share on the Dealing Day at the time of subscription or Net Asset Value per Share at the time of redemption of the relevant Classes of Shares. For the purposes of calculating the Contingent Deferred Sales Charge, a transfer will be treated as a redemption by the transferor and a subscription by the transferee.

As and from the launch of the Class F (USD) Shares, the calculation of the Contingent Deferred Sales

Charge shall be calculated based on a percentage of the lower of either (i) Net Asset Value per Share on the Dealing Day at the time of subscription for the relevant Classes of Shares or (ii) Net Asset Value per Share on the Dealing Day at the time of redemption for the relevant Classes of Shares. Depending on when a Shareholder redeems out of the Fund potential inequalities may arise. In the event that such inequalities occur neither the Company, the Manager, the Investment Manager, Administrator or Depositary shall be liable to any Shareholder for any excess Contingent Deferred Sales Charge so levied.

In respect of the administration services, the Administrator will be entitled to receive out of the assets of the Fund an annual fee which will not exceed 0.03% of the net assets of the Fund (plus VAT if any) subject to an annual minimum fee of up to US$25,000 and its reasonable costs and expenses incurred by the Administrator in the performance of its duties as Administrator of the Fund. These fees shall accrue and be calculated on each Dealing Day and shall be payable monthly in arrears.

In respect of the registrar and transfer agency services, the Administrator will be entitled to receive from the Company out of the assets of the Fund an annual fee which will not exceed US$2,500 plus $1,000 for each additional share class greater than four, together with reasonable costs and expenses incurred by the Administrator in the performance of its duties as Administrator of the Fund. These fees shall accrue and be calculated on each Dealing Day and shall be payable monthly in arrears. The Administrator shall also be entitled to be reimbursed out of the assets of the Fund all agreed transaction charges (which will be charged at normal commercial rates).

The Depositary will be entitled to receive from the Company out of the assets of the Fund an annual trustee fee which will not exceed 0.02% of the Net Asset Value of the Fund (plus VAT, if any) together with reasonable costs and expenses incurred by the Depositary in the performance of its duties as Depositary of the Fund. These fees shall accrue and be calculated on each Dealing Day and shall be payable monthly in arrears. The Depositary shall also be entitled to be reimbursed out of the assets of the Fund all agreed safekeeping fees, expenses and all agreed transaction charges (which will be charged at normal commercial rates).

The cost of establishing the Fund, obtaining authorisation from any authority, regulatory or other body, listing the Shares on Euronext Dublin, filing fees and the preparation and printing of this Supplement, marketing costs and the fees of all professionals relating to it will be borne by the Manager.
