

Fund Objective

The portfolio aims to offer both income and capital growth through a well-diversified bond portfolio. This fund may invest 45% offshore.

Fund Strategy

The portfolio aims to offer both income and capital growth through a well-diversified bond portfolio. The portfolio will invest in a combination of fixed interest securities, including national government, parastatals, municipal and corporate bonds. The Manager may from time to time invest in listed and unlisted financial instruments in accordance with the provisions of the Act, and the sub-ordinate legislation thereto, as amended from time to time, in order to achieve the portfolio's investment objective.

Apart from the above securities, the Sanlam Investment Management Bond Plus Fund may also invest in participatory interests in collective investment schemes registered in South Africa or of participatory interests in collective investment schemes or similar schemes operated in territories with a regulatory environment which is to the satisfaction of the manager and trustee of a sufficient standard to provide for investor protection at least equivalent to that in South Africa.

Nothing in this clause contain shall preclude the Manager from varying the ratio of fixed interest securities and assets in liquid form in terms of changing economic factors, legislation or other market conditions and from retaining cash or placing cash on deposit in terms of this Deed; provided that the Manager shall ensure that the aggregate value of the assets comprising the portfolio include fixed interest securities and/or assets in liquid form of the aggregate value required from time to time by the Act.

Why choose this fund?

*This fund gives you active exposure to the South African bond market and should form part of a well diversified portfolio.

*The fund aims to achieve capital growth by investing in long term fixed interest securities.

*Over time, the fund should produce returns in excess of a money market fund, but at higher risk.

Fund Information

Fees (Incl. VAT)

	Retail Class (%)
Advice initial fee (max.)	0.69
Manager initial fee	N/A
Advice annual fee (max.)	1.15
Manager annual fee	0.86
Total Expense Ratio (TER)	0.88

Total Expense Ratio (TER) | PERIOD: 01 April 2019 to 31 March 2022

Total Expense Ratio (TER) | 0.88% of the value of the Financial Product was incurred as expenses relating to the administration of the Financial Product. A higher TER does not necessarily imply a

poor return, nor does a low TER imply a good return. The current TER may not necessarily be an accurate indication of future TER's.

Transaction Cost (TC) | 0.03% of the value of the Financial Product was incurred as costs relating to the buying and selling of the assets underlying the Financial Product. Transaction Costs are a necessary cost in administering the Financial Product and impacts Financial Product returns. It should not be considered in isolation as returns may be impacted by many other factors over time including market returns, the type of Financial Product, the investment decisions of the investment manager and the TER.

Total Investment Charges (TER + TC) | 0.91 of the value of the Financial Product was incurred as costs relating to the investment of the Financial Product.

The portfolio manager may borrow up to 10% of the market value of the portfolio to bridge insufficient liquidity. This fund is also available via certain LISPS (Linked Investment Service Providers), which levy their own fees. Fluctuations or movements in exchange rates may cause the value of underlying international investments to go up or down.

Additional Information

All reasonable steps have been taken to ensure the information on this MDD is accurate. The information to follow does not constitute financial advice as contemplated in terms of the Financial Advisory and Intermediary Services Act. Independent professional financial advice should always be sought before making an investment decision.

The Sanlam Group is a full member of the Association for Savings and Investment SA. Sanlam Collective Investments (RF) (Pty) Ltd is a registered and approved Manager in Collective Investment Schemes in Securities. Collective investment schemes are generally medium- to long-term investments. Past performance is not necessarily a guide to future performance, and that the value of investments / units / unit trusts may go down as well as up. A schedule of fees and charges and maximum commissions is available from the Manager on request. Additional information of the proposed investment, including brochures, application forms and annual or quarterly reports, can be obtained from the Manager, free of charge. Collective investments are traded at ruling prices and can engage in borrowing and scrip lending. The Manager does not provide any guarantee either with respect to the capital or the return of a portfolio. Collective investments are calculated on a net asset value basis, which is the total market value of all assets in the portfolio including any income accruals and less any deductible expenses such as audit fees, brokerage and service fees. Forward pricing is used. Performance is based on NAV to NAV calculations with income reinvestments done on the ex-div date. Performance is calculated for the portfolio and the individual investor performance may differ as a result of initial fees, actual investment date, date of reinvestment and dividend withholding tax. The manager has the right to close the portfolio to new investors in order to manage it more efficiently in accordance with its mandate. The performance of the portfolio depends on the underlying assets and variable market factors. Lump sum investment performances are quoted. The portfolio may invest in other unit trust portfolios which levy their own fees, and may result in a higher fee structure for our portfolio. All the portfolio options presented are approved collective investment schemes in terms of Collective Investment Schemes Control Act, No 45 of 2002 ("CISCA"). The fund may from time to time invest in foreign countries and therefore it may have risks regarding liquidity, the repatriation of funds, political and macroeconomic situations, foreign exchange, tax, settlement, and the availability of information. The Manager has the right to close any portfolios to new investors to manage them more efficiently in accordance with their mandates. Income funds derive their income primarily from interest-bearing instruments. The yield is a current and is calculated on a daily basis.

Sources of Performance and Risk Data: Morningstar Direct, INET BFA and Bloomberg.

The risk free asset assumed for the calculation of Sharpe ratios: STEFI Composite Index.

The highest and lowest 12-month returns are based on a 12-month rolling period over 10 years or since inception where the performance history does not exist for 10 years.
