Minimum Disclosure Document
Sanlam Investment Management Enhanced Yield Fund
March 2020

Fund Objective
The fund aims to offer a higher yield than a money market fund by taking advantage of the higher yields offered by a wide range of debt instruments including corporate bonds. This fund will have no equity exposure. Despite the fact that this fund may also invest 30% offshore, this is currently not being implemented and no offshore securities are being held at this stage. The ASISA category limits the average duration of the fund to 5 years.

Fund Strategy
The fund aims to enhance yield by investing in a blend of floating rate note and credit instruments in a range of maturities. The fund is mandated to invest in unlisted financial instruments (derivatives) for efficient portfolio management. The investment manager will also be allowed to invest in financial instruments (derivatives) as allowed by the Act from time to time in order to achieve its investment objective.

Tax Free Unit Trust
This fund qualifies as a tax free investment according to section 12T of the Income Tax Act, with effect from 1 March 2015. South African individuals qualify for the associated tax benefits namely no tax on dividends, income or capital gains whilst still enjoying all the benefits of a unit trust. Note contributions to tax free investments are limited to R36 000 per tax year, with a lifetime limit of R500 000. Amounts invested in excess of these permissible thresholds are taxable.

Risk Profile (Conservative)

This portfolio aims to ensure stable income flows and capital preservation is of primary importance. The portfolio invests in a combination of low-risk asset classes, but exposure to equities is limited to protect against volatility and risk of capital losses. It aims to provide a high level of income, while maximising returns above cash. Capital preservation is achieved through diversification across a variety of high yielding assets.

Portfolio Manager(s)

Melville du Plessis
MSc Finance, B.Com (Hons), CFA, CAIA, FRM

Additional Information

All reasonable steps have been taken to ensure the information on this MDD is accurate. The information to follow does not constitute financial advice as contemplated in terms of the Financial Advisory and Intermediary Services Act. Independent professional financial advice should always be sought before making an investment decision.

The Sanlam Group is a full member of the Association for Savings and Investment SA. Sanlam Collective Investments (RF) (Pty) Ltd is a registered and approved Manager in Collective Investment Schemes in Securities. Collective investment schemes are generally medium- to long-term investments. Past performance is not necessarily a guide to future performance, and that the value of investments / units / unit trusts may go down as well as up. A schedule of fees and charges and maximum commissions is available from the Manager on request. Additional information of the proposed investment, including brochures, application forms and annual or quarterly reports, can be obtained from the Manager, free of charge Collective investments are traded at ruling prices and can engage in borrowing and scrip lending. The Manager does not provide any guarantee either with respect to the capital or the return of a portfolio. Collective investments are calculated on a net asset value basis, which is the total market value of all assets in the portfolio including any income accruals and less any deductable expenses such as audit fees, brokerage and service fees. Forward pricing is used. Performance is based on NAV to NAV calculations with income reinvestments done on the ex-div date. Performance is calculated for the portfolio and the individual investor performance may differ as a result of initial fees, actual investment date, date of reinvestment and dividend withholding tax. The manager has the right to close the portfolio to new investors in order to manage it more efficiently in accordance with its mandate. The performance of the portfolio depends on the underlying assets and variable market factors. Lump sum investment performances are quoted. The portfolio may invest in other unit trust portfolios which levy their own fees, and may result in a higher fee structure for our portfolio.

All the portfolio options presented are approved collective investment schemes in terms of Collective Investment Schemes Control Act, No 45 of 2002 (“CISCA”). The fund may from time to time invest in foreign countries and therefore it may have risks regarding liquidity, the repatriation of funds, political and macroeconomic situations, foreign exchange, tax, settlement, and the availability of information. Income funds derive their income primarily from interest-bearing instruments. The yield is a current and is calculated on a daily basis.

Sources of Performance and Risk Data: Morningstar Direct, INET BFA and Bloomberg.

The risk free asset assumed for the calculation of Sharpe ratios: STEFI Composite Index.

The highest and lowest 12-month returns are based on a 12-month rolling period over 10 years or since inception where the performance history does not exist for 10 years.

Obtain a personalised cost estimate before investing by visiting www.sanlamunittrustsmdd.co.za and using our Effective Annual Cost (EAC) calculator. Alternatively, contact us at 0860 100 266.
