Effective annual cost

The Effective Annual Cost (EAC) is a measure which has been introduced to allow you to compare the cost you incur when you invest in different financial products. It is expressed as a percentage of your investment amount. The EAC is made up of three charges, which are added together, as shown in the table below. Some of the charges may vary, depending on your investment period. The EAC calculation assumes that an investor terminates his or her investment in the financial product at the end of the relevant periods shown in the table.

Charges	1 Year	3 Years	5 Years	10 Years
Investment Management Charges ¹	1.04	1.04	1.04	1.04
Advice Charges ²	0.0	0.0	0.0	0.0
Administration Charges	0.0	0.0	0.0	0.0
Effective Annual Cost	1.04	1.04	1.04	1.04

The Fund does not pay Performance Fees.

1 The Investment Management Charges are calculated as the total of TER and TC: Total Expense Ratio (TER) 0.97% of the value of the financial product was incurred as expenses relating to the administration of the product. A higher TER does not necessarily imply a poor return, nor does a low TER imply a good return. The current TER cannot be regarded as an indication of future TER's. TER Calculation Period: From 31/12/15 to 31/12/18

Transaction Costs (TC) 0.07% of the value of the financial product was incurred as costs relating to the buying and selling of the assets underlying the product. TCs are a necessary cost in administering the product and impacts the product's returns. It should not be considered in isolation as returns may be impacted by many other factors over time incl. market returns, type of financial product, investment decisions of the investment manager and the TER.

2 Any advice fee is negotiable between the client and their financial advisor. An annual advice fee negotiated is paid via a repurchase of units from the investor.

Risk and Reward Profile

The risk category was calculated using historical performance data and may not be a reliable indicator of the portfolio's future risk profile. The portfolio's risk category is not guaranteed to remain fixed and may change over time. A portfolio in the lowest category does not mean a risk-free investment. The portfolio is in this category because it can take higher risks in search of higher rewards and its price may rise and fall accordingly.

Risk Factors

Currency risk: The Fund has holdings which are denominated in currencies other than sterling and may be affected by movements in exchange rates. Consequently the value of an investment may rise or fall in line with the exchange rates.

Operational risk: Failures or delays in operational processes may negatively affect the fund. There is a risk that any company responsible for the safekeeping of the assets of the fund may fail to do so properly or may become insolvent, which could cause loss to the fund.

Further risk factors that apply to the fund can be found in the fund's Prospectus and Supplement

The value of this portfolio is subject to fluctuation and past performance is not necessarily a guide to future performance.

The performance is calculated for the portfolio and the actual individual investor performance will differ as a result of initial fees, the actual investment date, the date of reinvestment and dividend withholding tax. All terms exclude costs. Fluctuations or movements in exchange rates may cause the value of underlying investments to go up or down.

This document is provided to give an indication of the investment and does not constitute an offer/invitation to sell or buy any securities in any fund managed by us nor a solicitation to purchase securities in any company or investment product. It does not form part of any contract for the sale or purchase of any investment. The information contained in this document is for guidance only and does not constitute financial advice as contemplated in terms of the South African Financial Advisory and Intermediary Services Act.

The fund price is calculated on a net asset value basis, which is the total value of all assets in the portfolio including any income and expense accruals. Trail commission and incentives may be paid and are for the account of the manager. Performance figures quoted are from Sanlam Investments and are shown net of fees. Performance figures for periods longer than 12 months are annualized. NAV to NAV figures are used. Calculations are based on a lump sum investment.

Please note that all Sanlam Investments funds carry some degree of risks which may have an adverse effect on the future value of your investment. Any offering is made only pursuant to the relevant offering document, together with the current financial statements of the relevant fund, and the relevant subscription/application forms, all of which must be read in their entirety together with the Sanlam Universal Funds plc prospectus, the Fund supplement, the MDD and the KIID.

No offer to purchase securities will be made or accepted prior to receipt by the offeree of these documents, and the completion of all appropriate documentation.
