Sanlam Centre Global Listed Infrastructure Fund
Perpetua Global Equity UCITS Fund

Satrix Global Factor Enhanced Equity Fund

This Supplement forms part of and should be read in conjunction with the Prospectus dated 27 February 2018 and the latest audited financial statements of the Company.

The Fund will invest in financial derivative instruments ("FDI") for investment purposes and/or efficient portfolio management and hedging purposes to achieve its investment objective. The Fund will not be leveraged by its use of FDI.

Investment in the Fund should be viewed as medium to long term.

Shareholders should note that dividends may be paid out of the capital of the Fund in order to preserve cash flow to Shareholders. Therefore, there is greater risk that capital may be eroded and distribution will be achieved by forgoing the potential for future capital growth of your investment. This cycle may continue until all capital is depleted. Distributions out of capital may have different tax consequences to distributions of income and it is recommended that you seek appropriate advice in this regard.

Shareholders should also note that fees and expenses of the distributing share classes will be charged to the capital of the Fund. This will have the effect of lowering the capital value of your investment. The Fund will charge fees and expenses of the distributing share classes to the capital of the Fund in order to maximise distributions made to Shareholders.

The Directors of the Company, whose names appear in the "Directors of the Company" section of the Prospectus, accept responsibility for the information contained in the Prospectus and this Supplement. To the best of the knowledge and belief of the Directors (who have taken all reasonable care to ensure that such is the case) such information is in accordance with the facts and does not omit anything likely to affect the import of such information. The Directors accept responsibility accordingly.

Although the Fund is not a money market fund, it may invest in money market instruments and cash deposits. Shares in the Fund are not deposits and are not guaranteed. Investment in the Fund involves certain investment risks, including the fluctuation of principal. Investors' attention is particularly drawn to the section of the Prospectus entitled "Risk Factors".

Words and expressions defined in the Prospectus shall, unless the context otherwise requires, have the same meaning when used in this Supplement.

Dated: 1 February 2019

Investment Objective and Policies

Investment Objective

The investment objective of the Fund is to seek to outperform the Consumer Price Index by 4% per annum over five-year periods with a target of generating a positive absolute return on a rolling 3 year basis.

Policy and Guidelines

The Fund aims to achieve its stated investment objective by investing in a diversified portfolio of instruments across a variety of different asset classes. The instruments in which the Fund invests are selected on the basis of proprietary multi-asset trading strategies of the Investment Manager as further detailed below. The application of these trading strategies may result in the Fund investing in the underlying instruments on a long/short basis.

The Fund will invest in equities, fixed income securities such as corporate and government bonds (which may be fixed or floating rate and rated investment or sub-investment grade by Standard & Poor's, Moody's or an equivalent rating agency), money market instruments such as investment grade corporate bonds and government issued securities of less than 1 year maturity, cash deposits, collective investment schemes ("**CIS**") and exchange traded funds ("**ETF**"). The Fund will also invest in FDI in the form of futures (including equity index futures) and options in order to gain indirect exposure to these instruments and asset classes. All instruments will be listed and/or traded on the recognised markets and exchanges as set out in Appendix I to the Prospectus. The instruments will not be selected on the basis of a particular geographical or sector bias. Any investment in CIS and ETF will be in order to gain exposure to global equities, fixed income securities and volatility indices. The Fund may invest in CIS and ETF which are regulated as UCITS or as non-UCITS and the Fund's investment in such CIS shall not exceed 10% of its Net Asset Value.

Although the Fund may invest in instruments on a long and/or short basis in accordance with the trading strategies as set out below, the global exposure as a result of such investment in FDI shall not exceed 100% of the Net Asset Value of the Fund and where the Fund uses FDI, it will, at all times, comply with the conditions and limits set out in the Central Bank Rules. The Company on behalf of the Fund, will on request, provide supplementary information to Shareholders relating to the risk management methods employed, including the quantitative limits that are applied and any recent developments in the risk and yield characteristics of the main categories of investments. It is not intended that the use of FDI in this way will cause the Net Asset Value of the Fund to have high volatility or otherwise cause its existing risk profile to change.

The Fund will have a significant cash balance as most investments will be via futures and/or options. This cash balance will be invested in deposits and money market instruments. Accordingly, to the extent that FDI are used, their exposure will be fully covered.

Risk Management

The Manager on behalf of the Fund has filed with the Central Bank its risk management policy which enables it to accurately measure, monitor and manage the various risks associated with the use of FDI. The Manager will, on request, provide supplementary information to Shareholders relating to the risk management methods employed, including the quantitative limits that are applied and any recent developments in the risk and yield characteristics of the main categories of investments. As set out in the risk management policy, the Manager will use the commitment approach for the purposes of calculating global exposure.

Profile of a Typical Investor

A typical investor is an institutional investor, multi-manager, fund of funds or professional investor, being a corporate, pension fund, insurance company, public sector body such as a government, supranational agency or a local authority, bank, other investment firm, or any other intermediary. The Fund may also accept retail investors. The typical investor will invest over the medium to long-term and will expect the higher levels of volatility that accompany investment in equities, fixed income securities, money market

instruments, cash deposits, CIS, ETF and FDI, namely futures and options. Tax implications will vary by investor and each is encouraged to take its own tax advice.

Investment Restrictions

The general investment restrictions set out under the heading "Investment Restrictions" in the Prospectus shall apply.

In addition, the following investment restrictions will apply to the Fund:

1. The Fund may not be geared or leveraged through investment in any security, including but not limited to FDI.
2. Over-the-counter derivative instruments (except for forward currency transactions) are not permitted.
3. The Fund will not invest in securities that compel the Fund to accept physical delivery of a commodity.

Efficient Portfolio Management

The Fund may use FDI such as futures (including equity index futures) and options in order to gain indirect exposure to the instruments and asset classes in the "Policy and Guidelines" section.

Futures: Futures are contracts to buy or sell a standard quantity of a specific asset (or, in some cases, receive or pay cash based on the performance of an underlying asset, instrument or index) at a pre-determined future date and at a price agreed through a transaction undertaken on an exchange. Futures contracts allow the Investment Manager to hedge against market risk or gain exposure to the underlying market. Since these contracts are marked-to-market daily, the Investment Manager may, by closing out its position, exit from its obligation to buy or sell the underlying assets prior to the contract's delivery date. Futures may be also be used by the Investment Manager to equitise cash balances, both pending investment of a cash flow and with respect to fixed cash targets. Frequently, using futures to achieve a particular strategy instead of using the underlying or related security or index results in lower transaction costs being incurred.

Options: There are two forms of options: put and call options. Put options are contracts sold for a premium that gives one party (the buyer) the right, but not the obligation, to sell to the other party (the seller) of the contract, a specific quantity of a particular product or financial instrument at a specified price. Call options are similar contracts sold for a premium that gives the buyer the right, but not the obligation, to buy from the seller of the option. Options may also be cash settled. The Investment Manager on behalf of the Fund may be a seller or buyer of put and call options. The options will be exchange traded options on individual equities or on futures contracts of equity market indices.

Currency Hedging: The Fund may also use forward foreign exchange contracts which involve an obligation to purchase or sell a specific currency at a future date at a price set at the time of the contract. The Fund may enter into these contracts primarily for hedging purposes as the investments of the Fund may be acquired in a wide range of currencies including the Base Currency. Whilst hedging strategies are designed to reduce the losses to a Shareholder's investment if the currencies of assets which are denominated in currencies other than the Base Currency fall against that of the Base Currency, the use of hedging strategies may substantially limit holders of Shares from benefiting if the Base Currency falls against the currency in which the assets of the Fund are denominated. To the extent that hedging transactions are successful, Shareholders in the hedged Share class will not be affected if the value of the hedged class rises or falls against the Base Currency and/or currencies in which the assets of the Fund are denominated. For further information please see the "Hedged Classes" section of the Prospectus.

However, where the Investment Manager seeks to hedge against currency fluctuations, while not intended, this could result in over-hedged or under-hedged positions due to external factors outside the control of the Investment Manager. Over-hedged positions will not exceed 105% of the Net Asset Value and hedged positions will be kept under review to ensure that positions in excess of 100% of Net Asset Value will not be carried forward from month to month.

Where, in respect of any Share class of the Fund, it is intended to conduct currency management

transactions, the benefit and cost of such transactions shall accrue solely to the investors in such class and the Net Asset Value per Share of that class shall be increased/reduced as the case may be by the benefit/cost of any such currency management transactions. Any currency exposure of a class may not be combined with or offset against that of any other Share class of the Fund. The currency exposures of the assets of the Fund may not be allocated to separate Share classes.

Further detail on the requirements relating to such transactions and the Collateral Policy for the Fund is contained in the Prospectus.

Borrowings

In accordance with the general provisions contained in the “Funds-Borrowing and Lending Powers” section of the Prospectus, the Fund may borrow up to 10% of its net assets on a temporary basis. Such borrowings are permitted only to meet the Fund’s obligations in relation to (i) the administration of the Fund relating to purchase or sale transactions; and/or (ii) the redemption or cancellation of Shares in the Fund. Borrowings in relation to (i) above are only permitted for a period of up to 8 calendar days, and 61 calendar days in respect of (ii) in order to comply with the South African Financial Sector Conduct Authority and to allow for the Fund to be distributed to South African retail investors. However, at all times borrowings on behalf of the Fund will be in accordance with the Regulations and the requirements of the Central Bank.

Listing

The Class A Sterling Shares, Class B Sterling Shares, Class B USD Shares, Founder Sterling Shares, Income Distribution A Sterling Shares, Income Distribution B Sterling Shares, Income Distribution Founder Sterling Shares, Class A Euro Shares and Class H USD Shares in the Fund have been admitted to listing on the Official List and traded on the Global Exchange Market (“GEM”) of Euronext Dublin.

An application has been made to Euronext Dublin for the Class SR Hedged USD Shares and Class SI Hedged USD Shares, to be admitted to the Official List and to trading on the GEM of Euronext Dublin and dealing in these Shares of the Fund will commence immediately following the closing of the Initial Offer Period. No application has been made to list the Shares on any other stock exchange.

GEM is not a “regulated market” as defined under the Directive on Markets in Financial Instruments 2014/65/EU.

Neither the admission of the Shares to listing on the Official List and trading on the Global Exchange Market of Euronext Dublin nor the approval of this Supplement pursuant to the listing requirements of Euronext Dublin shall constitute a warranty or representation by Euronext Dublin as to the competence of service providers to or any other party connected with the Fund, the adequacy of information contained in this Supplement or this Prospectus or the suitability of the Fund for investment purposes.

As at the date of this Supplement, no Director nor their spouses nor their infant children or any person closely associated have any interest in the Shares of the Fund or any options in respect of such capital.

As at the date of this document the Fund does not have any loan capital (including term loans) outstanding or created but unissued or any outstanding mortgages, charges, debentures or other borrowings or indebtedness in the nature of borrowings, including bank overdrafts, liabilities under acceptance (other than normal trade bills) or acceptance credits, hire purchase or finance lease commitments, guarantees or other contingent liabilities which are material in nature.

The directors confirm there has been no significant change in the financial or trading position of the applicant since 31 December 2017.

Investment Manager and Distributor

The investment manager and distributor currently appointed to the Fund is:

Sanlam FOUR Investments UK Limited

Sanlam FOUR Investments UK Limited (the "**Investment Manager**") is a company incorporated under the laws of the United Kingdom having its registered office at 1 Ely Place, London, EC1N 6RY, United Kingdom. The Investment Manager provides investment management and advisory services to collective investment schemes and is regulated by the Financial Conduct Authority.

Risk Factors

The general risk factors set out under the heading "Risk Factors" section of the Prospectus apply to the Fund.

Trading Strategies

The Investment Manager may invest in the instruments and asset classes listed above under "Policy and Guidelines", either directly or through the use of FDI in the form of futures and options, on the basis of a proprietary trading model which uses the following multi-asset strategies: directional long only, long/short and long only pair trades, and hedge. The decision to allocate to a particular trading strategy and asset class is based on prevailing market conditions.

Directional Long Only

A directional long only strategy is a trading or investment strategy that entails taking a long position in a security on the basis of a bet that the price of the security is going to rise. In the case of the Fund, opportunistic use of FDI will be directional. Through applying the directional long only strategy, investments are used to express a specific directional view on a market or asset class.

Long/Short Pairs

Long/short pair trading is a market neutral investment strategy that entails taking a long position in a security that is expected to increase in value and a short position in a security that is expected to decrease in value. This creates a hedge against the sector and the overall market that the securities are in. This strategy is able to profit from a rising, falling or flat market.

By way of example, two investments, one long and one short, are used in combination to express a relative view on the relevant market or asset class.

Long Only Pairs

Long only pairs seek to achieve the same return profile as long/short pairs but with positions in non correlated investments.

By way of example, two investments, both long, are used in combination to express a directional view with an alternative return profile to a simple long only investment.

Hedge

A hedge strategy is used when there is uncertainty in respect of what the market will do or how the market will behave. A perfect hedge reduces your risk to nothing (except for the cost of the hedge). To give an example, the Fund may take a long position on an equity and then create a short position in respect of the same equity. This means that the Fund will at least avoid a loss no matter which direction the relevant equity's price takes.

The Fund shall not follow any single trading strategy at any one time and the expectation is that a combination of strategies will be applied in order to select instruments and manage exposures within the Fund. The Investment Manager anticipates allocations to trading strategies within the following parameters:

Portfolio Exposures	Gross Exposure Range (% of NAV)
----------------------------	--

Directional long only	0 – 90%
Long/Short pairs	0 – 60%
Long only pairs	0 – 30%
Hedge	0 – 20%

As stated above, global exposure arising through the use of FDI shall not exceed 100% of the Net Asset Value of the Fund.

The foregoing reflects the Investment Manager's current asset allocation strategy but investors should be aware that the Investment Manager may modify or change elements of its strategy from time to time.

Dividend Policy

It is the intention of the Company to seek UK “reporting fund” status in respect of Class A, Class C, Income Distribution A Sterling Shares, Income Distribution B Sterling Shares, Founder Sterling Shares and Income Distribution Founder Sterling Shares. In broad terms a “reporting fund” is an offshore fund that meets certain upfront and annual reporting requirements to HM Revenue & Customs and its Shareholders. Once reporting fund status is obtained from HM Revenue & Customs for the relevant classes it will remain in place permanently, provided the annual requirements are complied with. UK Shareholders who hold their interests in the Class A, Class C, Income Distribution A Sterling Shares, Income Distribution B Sterling Shares, Founder Sterling Shares and Income Distribution Founder Sterling Shares at the end of the reporting period to which the reported income relates, subject to their personal circumstances, will normally be liable to either income tax or corporation tax on the higher of any cash distribution paid and the full reported amount. The reported income will be deemed to arise to UK Shareholders on the date the report is issued by the Company. It is not the Directors’ current intention to declare a dividend for Class A, Class C or Founder Sterling Shares.

Subject to the discretion of the Directors, dividends (if any) will be declared and paid in respect of Income Distribution A Sterling Shares, Income Distribution B Sterling Shares and Income Distribution Founder Sterling Shares on a monthly basis. Shareholders will have the option to either receive the declared dividend (if any) or re-invest in the purchase of Shares of the relevant class. Payment will be paid by telegraphic transfer in Sterling to the Shareholder’s account unless the payment is for an amount less than £50 in which case such payment will be automatically reinvested in the purchase of Shares of the relevant class for the account of the relevant Shareholder. The Directors reserve the right to change the dividend policy of the Fund to reflect changes that may occur from time to time in the requirements for qualifying as a reporting fund or otherwise for the purposes of UK taxation and will notify Shareholders of any changes to the Dividend Policy.

As at the date of this Supplement, no dividends have been declared.

Investors should refer to their tax advisors in relation to the implications of these Share classes obtaining such status and any payment of dividends. Please see the section entitled United Kingdom under the Taxation section of the Prospectus of the Company for further details.

Key Information for Buying and Selling

Class A Sterling, Class B Sterling, Class B USD, Income Distribution A Sterling, Income Distribution Founder Sterling, Income Distribution B Sterling, Founder Sterling Shares*, Class A Euro Shares, and Class H USD Shares are currently in issue and are available for subscription at the Net Asset Value per Share of the relevant Class.

*Founder Sterling Shares are only available to those investors who have a separate investment management mandate with the Investment Manager.

Initial Offer Period

The Initial Offer Period for the Class SR Hedged USD Shares and Class SI Hedged USD Shares begins at 9.00a.m. on 28 November 2018 to 5.00 p.m. on 27 May 2019 (as may be shortened or extended by the Directors in accordance with the Central Bank’s requirements).

Initial Issue Price

SR Hedged USD	US\$10
SI Hedged USD	US\$10

Base Currency

The Base Currency of the Fund is GBP.

Minimum Investment Levels

Class A Sterling	Stg£1,000
Class A Euro	EUR 1,000
Class B Sterling	Stg£10,000
Class B USD	USD 10,000
Class H USD	USD 1,000
Income Distribution A Sterling	Stg£1,000
Income Distribution B Sterling	Stg£1,000
Income Distribution Founder Sterling	Stg£1,000
Founder Sterling	Stg£1,000
SR Hedged USD	None
SI Hedged USD	None

The Directors may waive such minimum investments levels in their absolute discretion.

Business Day

Any day (except Saturday or Sunday) on which the banks in both Ireland and the UK are open generally for business, or such other day as the Directors may, with the consent of the Depositary, determine and notify to Shareholders in advance.

Dealing Day

The Fund shall be open to dealing on every Business Day, however dealing must at least be fortnightly.

Dealing Deadline

In respect of a Dealing Day, the Dealing Deadline is defined as 11.00am in Ireland on the relevant Dealing Day.

Settlement Date

In the case of subscriptions payment must be received no later than three Business Days after the relevant Dealing Day. However, the Directors may, at their discretion, allow investors to make payment for subscriptions after these periods. In such circumstances, the provisions which are set out under the "Application for Shares" section of the Prospectus shall apply. Furthermore, the completed subscription documentation must have been received by the relevant Dealing Deadline.

If payment in full has not been received by the Settlement Date, or in the event of non-clearance of funds,

the Directors may treat the application as an application for such number of Shares as may be purchased with such payment on the next Dealing Day following receipt of payment in full or of cleared funds.

If cleared funds are not received on the Settlement Date then any interest costs and/or directly related charges will be reimbursed by the subscriber unless otherwise agreed by the Directors at their absolute discretion.

In the case of repurchases three Business Days after the relevant Dealing Day (assuming the receipt of the relevant duly signed repurchase documentation).

Preliminary Charge

Class A Sterling	none
Class A Euro	none
Class B Sterling	up to 5%
Class B USD	up to 5%
Class H USD	up to 5%
Income Distribution A Sterling	none
Income Distribution B Sterling	none
Income Distribution Founder Sterling	none
Founder Sterling	none
SR Hedged USD	none
SI Hedged USD	none

The directors may waive the Preliminary Charge in whole or in part. This section should be read in conjunction with the Charges and Expenses section below.

Valuation Point

12 noon in Ireland on the relevant Dealing Day.

Charges and Expenses

Investment Management Fee

The total annual management charges and management expenses of the Fund are based on a percentage of the Net Asset Value of the Fund prior to the deduction of any fees or other expenses.

The total annual management charges and management expenses of the Fund differ for the various classes of Shares. The total annual management charges and management expenses of the Class A, Class B, Class H USD, Income Distribution A Sterling, Income Distribution B Sterling, Income Distribution Founder Sterling and Founder Sterling Shares in the Fund will be as follows:-

Class A	0.75% per annum of the Net Asset Value of the Fund attributable to that class of Share.
Class B	0% per annum of the Net Asset Value of the Fund attributable to that class of Share as the Shareholders in this class have entered into a separate investment management agreement with the Investment

Manager.

Class H USD	0.75% per annum of the Net Asset Value of the Fund attributable to that class of Share.
Income Distribution A Sterling	0.75% per annum out of the capital of the Fund attributable to that class of Share.
Income Distribution B Sterling	0% per annum out of the capital of the Fund attributable to that class of Share.
Income Distribution Founder Sterling	0.5% per annum of the Net Asset Value of the Fund attributable to that class of Share.

Founder Sterling 0.5% per annum of the Net Asset Value of the Fund attributable to that class of Share.

The above fees shall accrue and be calculated with reference to the daily Net Asset Value of the Fund on each Dealing Day and will be payable monthly in arrears.

The Investment Manager may at its sole discretion waive all or a portion of the Investment Management Fee with respect to certain Shareholders' investment in the Fund. Any such waiver or reduction will not entitle other Shareholders to a similar waiver.

The Manager will be entitled to receive out of the assets of the Fund an annual aggregate fee of up to 0.15% of the Net Asset Value of the Class A, Class B, Class H USD, Income Distribution A Sterling, Income Distribution B Sterling, Income Distribution Founder Sterling and Founder Sterling Shares (plus VAT, if any) subject to a minimum fee of up to \$20,000. These fees will accrue and be calculated on each Dealing Day and be payable monthly in arrears. The Manager will be responsible for all its own out of pocket costs and expenses. The Manager will pay out of its fees, the fees and expenses of the Administrator.

The Manager will be entitled to receive from the Company an annual fee of 0.85% of the Net Asset Value of the Class SR Hedged USD Shares and 0.55% per annum of the Net Asset Value of the Class SI Hedged USD Shares. The Manager will pay out its fees, the fees and expenses of the Distributor, Investment Manager and the Administrator. The above fees shall accrue and be calculated with reference to the daily Net Asset Value of the Fund on each Dealing Day and will be payable monthly in arrears. The Manager will be responsible for all its own out of pocket costs and expenses.

The Registrar and Transfer Agent will be entitled to receive from the Company out of the assets of the Fund an annual fee which will not exceed US\$2,500 plus \$1,000 for each additional share class greater than four, together with reasonable costs and expenses incurred by the Registrar and Transfer Agent in the performance of its duties as Registrar and Transfer Agent of the Fund. These fees shall accrue and be calculated on each Dealing Day and shall be payable monthly in arrears. The Registrar and Transfer Agent shall also be entitled to be reimbursed out of the assets of the Fund all agreed transaction charges (which will be charged at normal commercial rates).

The Depositary will be entitled to receive from the Company out of the assets of the Fund an annual trustee fee which will not exceed 0.02% of the net assets of the Fund (plus VAT, if any) together with reasonable costs and expenses incurred by the Depositary in the performance of its duties as Depositary of the Fund. These fees shall accrue and be calculated on each Dealing Day and shall be payable monthly in arrears. The Depositary shall also be entitled to be reimbursed out of the assets of the Fund all agreed safekeeping fees, expenses and all agreed transaction charges (which will be charged at normal commercial rates).

The cost of establishing the Fund, obtaining authorisation from any authority, regulatory or other body, listing the Shares on Euronext Dublin, filing fees and the preparation and printing of this Supplement, marketing costs and the fees of all professionals relating to it, is not expected to exceed €15,000 and are being borne by the Fund and amortised over the five years following the first issue of Shares in the Fund.

This section should read in conjunction with the section entitled "Charges and Expenses" in the Prospectus.

Material Contracts

The Investment Management Agreement dated 03 March 2010 between the Manager and the Investment Manager (the "**Agreement**") provides that the appointment of the Investment Manager will continue in force unless and until terminated by the Manager on giving not less than 30 days' written notice to the Investment Manager or the Investment Manager giving not less than 90 days' written notice to the Manager. However, in certain circumstances the Agreement may be terminated without a minimum period of notice by either party. The Agreement limits the liability of the Investment Manager to the Manager to losses arising by reason of the fraud, bad faith, negligence, wilful default or wilful misfeasance of the Investment Manager in the performance or non-performance of its duties. The Agreement also provides that the Investment Manager shall indemnify the Manager to the extent that any claims, costs, direct damages, direct losses or expenses are attributable to the fraud, bad faith, negligence, wilful default or wilful misfeasance by the Investment Manager in the performance or non-performance of its duties.

Distribution Agreement

The Distribution Agreement dated 21 December 2015 between the Manager and the Distributor (the "Agreement") provides that the appointment of the Distributor will continue in force unless and until terminated by the Manager on giving not less than 90 days' written notice to the Distributor or by the Distributor giving not less than 90 days' written notice to the Manager. However, in certain circumstances the Agreement may be terminated without a minimum period of notice by either party. The Agreement limits the liability of the Distributor to the Manager to losses arising by reason of the fraud, bad faith, negligence, wilful default or wilful misfeasance by the Distributor in the performance or non-performance of its duties. The Agreement also provides that the Distributor shall indemnify the Manager to the extent that any claims, costs, direct damages, direct losses or reasonable expenses are attributable to the fraud, bad faith, negligence, wilful default or wilful misfeasance by the Distributor in the performance or non-performance of its duties.
