

**Fund Objective**

The Fund is an actively managed Rand denominated global equity fund aiming to deliver superior returns over the long term by investing in a carefully selected, diversified basket of shares across the globe.

**Fund Strategy**

The Fund employs an active, conviction-driven management style. Key to the fund is its focus on identifying growing companies with competitive franchises and strong cash generation. The fund is managed by the highly experienced FOUR Capital Partners (UK) global investment team with its unique Intrinsic Value investment approach.

**Why choose this fund?**

- Investors seeking exposure to a diversified portfolio of international equities targeting long term growth are well suited to invest in this fund.
- The fund provides a high degree of protection against potential Rand depreciation.
- The fund is well suited to be used as the global equity component within a diversified multi-asset portfolio.
- It is a Rand denominated international fund. No foreign exchange tax clearance is required.

**Risk Considerations**

- The fund is focused on investment in global listed companies; accordingly the performance of the fund is directly linked to the performance of global equity markets.
- Investing in international companies means the currency exchange rate fluctuations will impact on the fund's performance.
- As the SA Rand can be a volatile currency, this could lead to significant fluctuations in the Rand value of this fund.

**Fund Information**

<b>ASISA Fund Classification</b>	Global - Equity - General
<b>Risk profile</b>	High
<b>Benchmark</b>	MSCI World Index (Developed Markets)

Fees (Incl. VAT)	R class (%)
Advice initial fee (max.)	3.45
Manager initial fee	0
Advice annual fee (max.)	1.15
Manager annual fee	1.15
<b>Total Expense Ratio (TER)</b>	<b>1.22</b>

Advice fee | Any advice fee is negotiable between the client and their financial advisor. An annual advice fee negotiated is paid via a repurchase of units from the investor.

Obtain a personalised cost estimate before investing by visiting [www.sanlamunittrustsmdd.co.za](http://www.sanlamunittrustsmdd.co.za) and using our Effective Annual Cost (EAC) calculator. Alternatively, contact us at 0860 100 266.

**TOTAL EXPENSE RATIOS**

PERIOD : 1 April 2019 to 31 March 2022

Total Expense Ratio (TER) | 1.22% of the value of the Financial Product was incurred as expenses relating to the administration of the Financial Product. A higher TER does not necessarily imply a poor return, nor does a low TER imply a good return. The current TER may not necessarily be an accurate indication of future TER's.

Transaction Cost (TC): 0.07% of the value of the Financial Product was incurred as costs relating to the buying and selling of the assets underlying the Financial Product. Transaction Costs are a necessary cost in administering the Financial Product and impacts Financial Product returns. It should not be considered in isolation as returns may be impacted by many other factors over time including market returns, the type of Financial Product, the investment decisions of the investment manager and the TER.

Total Investment Charges (TER + TC): 1.29% of the value of the Financial Product was incurred as costs relating to the investment of the Financial Product.

A fund of fund unit trust only invests in other unit trusts, which levy their own charges, which could result in a higher fee structure for these funds.

**Risk Profile (High)**

This is a high-risk portfolio that aims to deliver capital growth over the long term (greater than 5 years). The fund will primarily invest in offshore equity markets and will be exposed to currency exchange rate fluctuations. The fund can therefore be highly volatile over short periods.

**Investment Approach**

Sanlam Investment UK's investment team employs an active, conviction-driven management style. Key to the Fund is its focus on identifying growing companies, with competitive franchises and strong cash generation. When focusing on a company, the team will undertake intensive research to establish the true worth of the business, what we call its Intrinsic Value. This process normally includes meeting the senior management of the companies we invest in.

The team will take high conviction positions in those opportunities where they have identified the potential for significant upside to current share prices. Although the team will give consideration to the macroeconomic backdrop, emphasis is very much on building a portfolio of outstanding companies from a bottom up basis.

**About The Fund Manager**

Sanlam Investment UK was founded in 2006 and is a specialist in equities fund management. The key to our success is the highly experienced investment team and its Intrinsic Value investment approach. As a boutique, Sanlam Investment UK benefits from short communication lines and swift efficient decision-making. Sanlam Investment UK's senior employees have significant ownership of the firm and invest in Sanlam Investment UK's funds. This aligns their interests with those of our clients'. Sanlam Investment UK also has the support of the Sanlam Group, a c.US \$10bn\* financial services company, which has a strategic long-term investment in Sanlam Investment UK. \* as at 19th August 2013

**Additional Information**

All reasonable steps have been taken to ensure the information on this MDD is accurate. The information to follow does not constitute financial advice as contemplated in terms of the Financial Advisory and Intermediary Services Act. Use or rely on this information at your own risk. Independent professional financial advice should always be sought before making an investment decision.

The Sanlam Group is a full member of the Association for Savings and Investment SA. Collective investment schemes are generally medium- to long-term investments. Please note that past performance is not necessarily a guide to future performance, and that the value of investments / units / unit trusts may go down as well as up. A schedule of fees and charges and maximum commissions is available from the Manager, Sanlam Collective Investments (RF) Pty Ltd, a registered and approved Manager in Collective Investment Schemes in Securities. Additional information of the proposed investment, including brochures, application forms and annual or quarterly reports, can be obtained from the Manager, free of charge.

Collective investments are traded at ruling prices and can engage in borrowing and scrip lending. Collective investments are calculated on a net asset value basis, which is the total market value of all assets in the portfolio including any income accruals and less any deductible expenses such as audit fees, brokerage and service fees. Actual investment performance of the portfolio and the investor will differ depending on the initial fees applicable, the actual investment date, and the date of reinvestment of income as well as dividend withholding tax. Forward pricing is used. The Manager does not provide any guarantee either with respect to the capital or the return of a portfolio. The performance of the portfolio depends on the underlying assets and variable market factors. Performance is based on NAV to NAV calculations with income reinvestments done on the ex-div date. Lump sum investment performances are quoted. The portfolio may invest in other unit trust portfolios which levy their own fees, and may result in a higher fee structure for our portfolio. All the portfolio options presented are approved collective investment schemes in terms of Collective Investment Schemes Control Act, No 45 of 2002 ("CISCA"). The fund may from time to time invest in foreign countries and therefore it may have risks regarding liquidity, the repatriation of funds, political and macroeconomic situations, foreign exchange, tax, settlement, and the availability of information. The Manager has the right to close any portfolios to new investors to manage them more efficiently in accordance with their mandates. The portfolio management of all the portfolios is outsourced to financial services providers authorized in terms of the Financial Advisory and Intermediary Services Act, 2002. Standard Bank of South Africa Ltd is the appointed trustee of the Sanlam Collective Investments Scheme.

The highest and lowest 12-month returns are based on a 12-month rolling period over 10 years or since inception where the performance history does not exist for 10 years.
