

Fund Description

The portfolio aims to provide members nearing retirement with the ability to buy a post-retirement income product that will grow in line with inflation after retirement. The investment portfolio may fluctuate when interest rates rise or fall, as it aims to match the price movements of inflation-linked annuities, rather than protect or maximise investment growth in the short term.

The portfolio invests in a long-duration bond portfolio, the Sanlam Corporate Inflation Annuity Tracker portfolio. The benchmark for this portfolio is the SALI Real, which has been developed by Sanlam to track the cost of purchasing an inflation-linked annuity.

Benchmark

SALI stands for Sanlam Asset Liability Index. In the same way the All Share Index (ALSI) tracks the change in value of the stocks on the Johannesburg Stock Exchange over time, so SALI tracks the change in the cost of purchasing an annuity.

Real refers to inflation linked. Members, who want to maintain their standard of living in retirement, should consider buying an annuity that protects them against increases in the cost of living i.e. inflation. An inflation linked annuity is guaranteed to provide increases equal to inflation.

The SALI Real has been developed by Sanlam to track the cost of purchasing an inflation linked annuity.

As real interest rates move up (and down) and the cost of an inflation linked annuity decreases (or increases), so the index will change to reflect this change

Total Investment Cost (TIC)

Total Expense Ratio (TER)	Transaction Costs (TC)	Total Investment Charges (TER + TC)
0.700%	0.010%	0.710%

The TER was incurred as expenses relating to the administration of the Financial Product. The TC was incurred as costs relating to the buying and selling of the assets underlying the Financial Product. The TIC was incurred as costs relating to the investment of the Financial Product. A higher TER does not necessarily imply a poor return, nor does a low TER imply a good return. The current TER may not necessarily be an accurate indication of future TER's.

The TER shown above is based on the highest fee tier where applicable and is calculated as at 31 March 2021.
