Advice fee | Any advice fee is negotiable between the client and their financial advisor. An annual advice fee is negotiated based on the client's investment size. The portfolio manager may borrow up to 10% of the market value of the portfolio to bridge insufficient liquidity. This fund is also available via certain LISIPS (Linked Investment Service Providers), which levy their own fees. Fluctuations or movements in exchange rates may change the value of underlying international investments to go up or down.

Total Expense Ratio (TER) | PERIOD: 01 October 2015 to 30 September 2018
Total Expense Ratio (TER): 1.74% of the value of the Financial Product was incurred as expenses relating to the administration of the Financial Product. A higher TER does not necessarily imply a poor return, nor does a low TER imply a good return. The current TER may not necessarily be an accurate indication of future TER’s.

Transaction Cost (TC): 0.26% of the value of the Financial Product was incurred as costs relating to the buying and selling of the assets underlying the Financial Product. Transaction Costs are a necessary cost in administering the Financial Product and impacts Financial Product returns. It should not be considered in isolation as returns may be impacted by many other factors over time including market returns, the type of Financial Product, the investment decisions of the investment manager and the TER.

The Sanlam Group is a full member of the Association for Savings and Investment SA. Sanlam Collective Investments (RF) (Pty) Ltd is a registered and approved Manager in Collective Investment Schemes in Securities. Collective investment schemes are generally medium- to long-term investments. Past performance is not necessarily a guide to future performance, and that the value of investments / units / unit trusts may go down as well as up. A schedule of fees and charges and maximum commissions is available from the Manager on request. Additional information of the proposed investment, including brochures, application forms and annual or quarterly reports, can be obtained from the Manager, free of charge Collective investments are traded at ruling prices and can engage in borrowing and scrip lending. The Manager does not provide any guarantee either with respect to the capital or the return of a portfolio. Collective investments are calculated on a net asset value basis, which is the total market value of all assets in the portfolio including any income accruals and less any deductible expenses such as audit fees, brokerage and service fees. Forward pricing is used. Performance is based on NAV to NAV calculations with income reinvestments done on the ex-div date. Performance is calculated for the portfolio and the individual investor performance may differ as a result of initial fees, actual investment date, date of reinvestment and dividend withholding tax. The manager has the right to close the portfolio to new investors in order to manage it more efficiently in accordance with its mandate. The performance of the portfolio depends on the underlying assets and market factors. Lump sum investment performances are quoted. The portfolio may invest in other unit trust portfolios which levy their own fees, and may result in a higher fee structure for our portfolio.
