

OBJECTIVE AND SUITABILITY

The investment objective of the Fund is to provide long term capital growth through exposure to world equity markets. The Fund is suitable for investors who are looking to achieve long-term capital growth with lower volatility and better risk adjusted returns.

STRATEGY

Equity Exposure - intended for growth. Achieved by investing in Sanlam's passive Satrix World Equity Tracker Fund which aims to replicate the performance of the global equity markets by tracking the MSCI World Equity Index (Developed Markets) in U.S Dollars (unhedged) with income reinvested.

Risk Management - designed to minimize the risk of capital loss and time in loss. The investment manager dynamically alters the net equity exposure of the fund using short futures contracts. The manager utilises Artificial Intelligence (AI) to determine the number of short futures contracts and therefore the degree of net equity exposure of the fund. Short futures contracts change in value inversely to equity market movements, therefore when equity markets fall, the futures increase in value offsetting various degrees of the losses. In rising equity markets, full participation in the growth of the markets may be forsaken to some extent for the benefit of minimising losses in negative markets.

 Morningstar Europe/Asia/Africa: USD Flexible Allocation Category

Past performance disclaimer. The Fund was launched on 31.12.13 and therefore no earlier UCITS Fund performance numbers are available. The preceding systematic Institutional Managed Account had a similar composition to the Sanlam Managed Risk Fund and used the same Managed Risk Strategy as the Sanlam Managed Risk Fund at that time and therefore we believe the performance numbers quoted are a fair indication of what the performance of this Fund would have been. The preceding Institutional Managed Account consisted of 60% US, 30% International (non-US) Developed and 10% Emerging Markets exposure utilising the MSCI World, S&P500 and EEM indices. On 12.06.17 the risk management strategy that the investment manager utilises was moved to one that is driven by an Artificial Intelligence (AI) Machine Learning investment engine. Past performance should not be taken as an indicator of future performance.

NET EQUITY EXPOSURE SINCE AI INCLUSION

GLOSSARY

AI investment engine:	An investment engine built to predict and proactively adapt to changing markets.
Average Volatility:	Measures the amount of variability in the value of the investment over the measurement period. Generally, the higher the volatility measure the riskier the investment since there is a potential for large value movements. The Average Volatility is calculated as the annualised standard deviation of daily log returns and includes both upside and downside volatility.
Maximum Drawdown:	Gives the percentage change between the highest value and lowest value for an investment over a measurement period. This measure is used to display the downside risk of the investment over the measurement period.
Maximum Drawdown period:	Time (in months) to fall from peak to valley and then recover back to previous peak
Recovery period:	Time (in months) it takes to recover from valley back to previous peak

REGULATORY STATEMENT

The Fund is a sub-fund of the Sanlam Universal Funds plc, a company incorporated with limited liability as an open-ended umbrella investment company with variable capital and segregated liability between sub-funds under the laws of Ireland and authorised by the Central Bank. The Fund is managed by Sanlam Asset Management (Ireland) Limited, Beech House, Beech Hill Road, Dublin 4, Ireland, Tel + 353 1 205 3510, Fax + 353 1 205 3521 which is authorised by the Central Bank of Ireland, as a UCITS Management Company, an Alternative Investment Fund Manager, and is licensed as a Financial Service Provider in terms of Section 8 of the South African FAIS Act of 2002.

The Sanlam Universal Funds Plc full prospectus, the Fund supplement, and the KIID is available free of charge from the Manager or at HYPERLINK "<http://www.sanlam.ie>" www.sanlam.ie. This is neither an offer to sell, nor a solicitation to buy any securities in any fund managed by us. Any offering is made only pursuant to the relevant offering document, together with the current financial statements of the relevant fund, and the relevant subscription/application forms, all of which must be read in their entirety together with the Sanlam Universal Funds plc prospectus, the Fund supplement and the KIID. No offer to purchase securities will be made or accepted prior to receipt by the offeree of these documents, and the completion of all appropriate documentation. A schedule of fees and charges and maximum commissions is available on request from the Manager.

Use or rely on this information at your own risk. Independent professional financial advice should always be sought before making an investment decision. Independent Financial advice should be sought, as not all investments are suitable for all investors.

Collective Investment Schemes (CIS) are generally medium to long term investments. The value of participatory interests may go down as well as up and past performance is not necessarily a guide to the future performance. The Manager does not provide any guarantee either with respect to the capital or the return of a portfolio. Fluctuations or movements in exchange rates may cause the value of underlying investments to go up or down.

The performance calculated for the portfolio, and the investor performance may differ as a result of initial fees, the actual investment date, the date of reinvestment and dividend withholding tax.

NAV to NAV figures are used. Calculations are based on a lump sum investment.

The Manager has the right to close any Portfolios to new investors to manage them more efficiently in accordance with their mandates. Collective investments are traded at ruling prices and can engage in borrowing and scrip lending.

The fund price is calculated on a net asset value basis, which is the total value of all assets in the portfolio including any income and expense accruals. Trail commission and incentives may be paid and are for the account of the manager. Performance figures quoted are from Sanlam Global Investment Solutions and Financial Express and are shown net of fees.

Performance figures for periods longer than 12 months are annualized. The information include in this fact sheet does not constitute financial advice. Sanlam Asset Management is a registered business name of Sanlam Asset Management (Ireland) Limited.
