Fund Objective

The fund invests in a balanced and diversified portfolio of collective investments which invests in sectors or shares with sound growth potential in order to achieve stable income and capital growth. The fund is suited for any investor wanting to earn a real return. This fund also provides manager diversification which should help the portfolio to have a lower volatility than similar mandated single manager portfolios.

Fund Strategy

- This is a complete, 'FAIS-friendly' risk-profiled solution for investors.
- Being a multi managed solution, manager risk is diversified using a combination of the best investment expertise within SA and abroad.
- Asset allocation will broadly reflect that of the sim.sense asset bands.
- Investing in this solution is a cost effective way of accessing the best investment expertise both locally and abroad.

Why choose this fund?

- The fund aims to provide investors with positive returns in excess of inflation over the long term and positive returns over any twelve month period.
- The fund is diversified across the major asset classes.
- The fund is managed by a combination of leading South African investment managers.
- The multi-manager approach diversifies the portfolio across managers and management styles.
- The fund’s asset allocation is appropriate for a conservative investor.

Fees (Incl. VAT) Retail-class (%)

Advice initial fee (max.) 3.45
Manager initial fee (max.) 0.00
Advice annual fee (max.) 1.15
Manager annual fee (max.) 0.86
Total Expense Ratio (TER) 1.61

Advice fee | Any advice fee is negotiable between the client and their financial advisor. An annual advice fee negotiated is paid via a repurchase of units from the investor.

Total Investment Charges (TER + TC): 1.94% of the value of the Financial Product was incurred as costs relating to the investment of the Financial Product.

A fund of funds is a portfolio that invests in portfolios of collective investment schemes, which levy their own charges, which could result in a higher fee structure for these portfolios. The portfolio manager may borrow up to 10% of the market value of the portfolio to bridge insufficient liquidity. This fund is also available via certain LISPS (Linked Investment Service Providers), which levy their own fees. Fluctuations or movements in exchange rates may cause the value of underlying international investments to go up or down.

| Lowest Annual %  | 1.20  |

*The highest and lowest 12 month returns are based on a 12 month rolling period over 10 years or since inception where the performance history does not exist for 10 years.

**Advice fee**
Advisers should consider the purpose, context and needs of their clients before recommending a fund of funds. Total fund fees, the cost of the funds, are negotiable and include both the manager’s fees, the TER, and any admission fees. Though a higher TER does not necessarily imply a poor return, nor does a low TER imply a good return. The current TER may necessarily cost in administering the Financial Product. Transaction Costs are a necessary cost in administering the Financial Product and impacts Financial Product returns. It should not be considered as returns. The TER is necessary to be impacted by many other factors over time including market returns, the type of Financial Product, the investment decisions of the investment manager and the TER.

This monthly Minimum Disclosure Document should be viewed in conjunction with the Glossary of Terms sheet which is available on the website.

Risk Profile (Cautious)

Your primary aim is to achieve capital growth to realise your goals. You are prepared to tolerate fluctuations in your returns because you know that the longer-term picture is worth the short-term pain, even if that means you lose money sometimes. While diversified across all the major asset classes, your portfolio will be tilted more towards equities because you know they offer the best long-term returns of all the asset classes and thus your wealth will grow over time.

Additional Information

All reasonable steps have been taken to ensure the information on this MDD is accurate. The information to follow does not constitute financial advice as contemplated in terms of the Financial Advisory and Intermediary Services Act. Use or rely on this information at your own risk. Independent professional financial advice should always be sought before making an investment decision.

The Sanlam Group is a full member of the Association for Savings and Investment SA. Collective investment schemes are generally medium-to-long-term investments. Please note that past performance is not necessarily a guide to future performance, and that the value of investments / units / unit trusts may go down as well as up. A schedule of fees and charges and maximum commissions is available from the Manager, Sanlam Collective Investments (RF) Pty Ltd, a registered and approved Manager in Collective Investment Schemes in Securities. Additional information of the proposed investment, including brochures, application forms and annual or quarterly reports, can be obtained from the Manager, free of charge. Collective investments are traded at ruling prices and can engage in borrowing and scrip lending. Collective investments are calculated on a net asset value basis, which is the total market value of all assets in the portfolio including any income accruals and less any deductible expenses such as audit fees, brokerage and service fees. Actual investment performance of the portfolio and the investor will differ depending on the initial fees applicable, the actual investment date, and the date of reinvestment of income as well as dividend withholding tax. Forward pricing is used. The Manager does not provide any guarantee either with respect to the capital or the return of a portfolio. The performance of the portfolio depends on the underlying assets and variable market factors. Performance is based on NAV to NAV calculations with income reinvestments done on the ex-div date. Lump sum investment performances are quoted. The portfolio may invest in other unit trust portfolios which levy their own fees, and may result in a higher fee structure for our portfolio. The management of investments are outsourced to Sanlam Multi Managers International (Pty) Ltd, FSP 845, an authorised Financial Services Provider under the Financial Advisory and Intermediary Services Act, 2002.

The highest and lowest 12-month returns are based on a 12-month rolling period over 10 years or since inception where the performance history does not exist for 10 years.
