

Fund Description

The fund offers investors diversified exposure to all the key local and international asset classes. The fund tracks a composite index benchmark and has a long-term strategic asset allocation that is rebalanced twice a year in March and September. The fund is designed to allow for maximum exposure to foreign equities. The high allocation to growth assets in this fund is expected to result in volatile returns over the shorter term, but also higher long term investment growth. The Portfolio comply with the provisions of Regulation 28, issued under the Pension Funds Act (Act No. 24 of 1956), as amended.

Total Investment Cost (TIC)

Total Expense Ratio (TER)	Transaction Cost (TC)	Total Investment Charges (TER+TC)
0.50%	0.17%	0.67%

The TER was incurred as expenses relating to the administration of the Financial Product. The TC was incurred as costs relating to the buying and selling of the assets underlying the Financial Product. The TIC was incurred as costs relating to the investment of the Financial Product. A higher TER does not necessarily imply a poor return, nor does a low TER imply a good return. The current TER may not necessarily be an accurate indication of future TER's.

The TER shown above only consists of the investment management fee. Once the portfolio reaches a six-month track record, the TER and TC will be reported. Fees are inclusive of any VAT.
