

Fund Objective

The investment objective of the Fund is to target capital growth over the long term and aims to deliver a return in excess of the benchmark.

Fund Strategy

The Fund aims to exploit the long-run potential of factors, such as Value, Momentum, Quality and Size, through a bottom-up active investment approach to stock selection.

Multiple characteristics are gathered at security, sector and regional level, which are analysed in order to position the Fund towards the desired factors.

The Fund is reconstructed and rebalanced periodically to ensure the desired factor exposure.

Risk Statement

This fund is relatively high risk in relation to other asset classes due to its equity based investment approach. Other risks are Currency Risk, Efficient Portfolio Management Risk, Securities Lending Risk and Market Capitalisation Risk due to the fund investing in medium-sized (by market capitalisation) companies.

International investments or investments in foreign securities could be accompanied by additional risks such as potential constraints on liquidity and repatriation of funds, macroeconomic risk, political risk, foreign exchange risk, tax risk, settlement risk as well as potential limitations on the availability of market information.

Additional Information

The Fund is a sub-fund of the Sanlam Universal Funds plc, a company incorporated with limited liability as an open-ended umbrella investment company with variable capital and segregated liability between sub-funds under the laws of Ireland and authorised by the Central Bank. The Fund is managed by Sanlam Asset Management (Ireland) Limited, Beech House, Beech Hill Road, Dublin 4, Ireland, Fax + 353 1 205 3521 which is authorised by the Central Bank of Ireland, as a UCITS Management Company, and an Alternative Investment Fund Manager, and is licensed as a Financial Service Provider in terms of Section 8 of the South African FAIS Act of 2002.

The Sanlam Universal Funds Plc full prospectus, the Fund supplement, the MDD and the KIID is available free of charge from the Manager or at www.sanlam.ie. This is neither an offer to sell, nor a solicitation to buy any securities in any fund managed by us. Any offering is made only pursuant to the relevant offering document, together with the current financial statements of the relevant fund, and the relevant subscription/application forms, all of which must be read in their entirety together with the Sanlam Universal Funds plc prospectus, the Fund supplement the MDD and the KIID. No offer to purchase securities will be made or accepted prior to receipt by the offeree of these documents, and the completion of all appropriate documentation. A schedule of fees and charges and maximum commissions is available on request from the Manager.

This is a Section 65 approved fund under the Collective Investment Schemes Control Act 45, 2002 (CISCA). Sanlam Collective Investments (RF) (Pty) Ltd is the South African Representative Office for this fund. Use or rely on this information at your own risk. Independent professional financial advice should always be sought before making an investment decision. Independent Financial advice should be sought, as not all investments are suitable for all investors.

Collective Investment Schemes (CIS) are generally medium to long term investments. The value of participatory interests may go down as well as up and past performance is not necessarily a guide to the future performance. The Manager does not provide any guarantee either with respect to the capital or the return of a portfolio. Fluctuations or movements in exchange rates may cause the value of underlying investments to go up or down.

The performance calculated for the portfolio, and the investor performance may differ as a result of initial fees, the actual investment date, the date of reinvestment and dividend withholding tax. NAV to NAV figures are used. Calculations are based on a lump sum investment with all distributions reinvested. Upon request to the Manager, the investment performance calculations are available for verification by any person. Since inception performance is calculated from the first full month.

The Manager has the right to close any Portfolios to new investors to manage them more efficiently in accordance with their mandates. Collective investments are traded at ruling prices and can engage in borrowing and scrip lending.

The fund price is calculated on a net asset value basis, which is the total value of all assets in the portfolio including any income and expense accruals. Trail commission and incentives may be paid and are for the account of the manager. Performance figures quoted are from Sanlam Investments UK Limited and are shown net of fees.

Performance figures for periods longer than 12 months are annualized. The information included in this MDD does not constitute financial advice as contemplated in terms of the South African Financial Advisory and Intermediary Services Act. Sanlam Asset Management is a registered business name of Sanlam Asset Management (Ireland) Limited. Source of data: Sanlam Investments UK, BBH.

Glossary of Terms

Annualised total returns

Annualised return is the weighted average compound growth rate over the period measured.

Capital growth

Capital growth is the profit made on an investment, measured by the increase in its market value over the invested amount or cost price. It is also called capital appreciation.

Collective Investment Schemes (CIS)

Collective investment schemes (also called unit trusts) are portfolios of assets such as equities, bonds, cash and listed property, in which investors can buy units. They allow private investors to pool their money together into a single fund, thus spreading their risk across a range of investments, getting the benefit of professional fund management, and reducing their costs.

MSCI World Index

The MSCI World Index captures large and mid cap representation across 23 Developed Markets (DM) countries. With 1,646 constituents, the index covers approximately 85% of the free float-adjusted market capitalization in each country.

Net asset value (NAV)

Net asset value (NAV) is the value of a fund's asset less the value of its liabilities per unit.

Optimisation techniques

The process of continuously improving the performance of the underlying fund by mirroring the performance of the index.

Replication strategy

This is a strategy used by index investors that tries to replicate or copy the performance of a specific benchmark, ie, it will hold exactly the same underlying funds as the benchmark in exactly the same proportions and puts together a cost effective product that replicates the benchmark over time. An investment vehicle such as index tracker is a good example of a fund that closely tracks the performance of a particular index.

Securities

A general term for shares, bonds, money market instruments and debentures.
